Revitalize You

"As the beautiful and bright rays of the sun send hopeful glimmers through the sky, we start to feel an undeniable sense of vitality. As the summer looms around the corner, it is time to shed the dullness of the winter and revitalize your look. There is nothing more energizing than being confidently beautiful!" – *Dr. Sulyman-Scott*

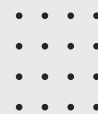

Procedure Highlights

LIPS

- Surgical: Lip Reduction
- Non-Surgical: Lip Augmentation

Skin Care Spotlight

Summer Essentials

What's New?

- That Face is going to Vegas
- May Promotion

"Give your skin a little love"

Surgical Lip Reduction

You may be a candidate for lip reduction surgery if you:

- **Have asymmetric lips**
- **Feel your lips are too large**
- **Have fistulas or pits in your lower lip**
- **Are unhappy with the results of a previous lip augmentation (e.g. silicone fillers)**

Lip reduction surgery can help you achieve the ideal balance.

Non-Surgical Lip Augmentation

Lip fillers can be injected into the upper and lower lips to give a plumper or a more hydrated appearance. It can also be used to achieve better lip symmetry. Properly placed lip filler should appear natural and undiscernible. The amount of filler injected can be customized to your aesthetic goals and lip anatomy.

May Promotion

***Complimentary SOME with PRP treatment.
Limited Quantity***

SOME® Skincare is a rejuvenating topical anti-aging skincare product that uses a proprietary blend of ingredients with your own Platelet Rich Plasma (PRP) to give you a truly personalized cosmetic experience.

*In addition to SOME, you
will be entered in a raffle
to win a Mini SOME
fridge.*

What is PRP?

PRP is a serum obtained from your own blood. The resulting serum is rich in stem cells and growth factors that stimulate the growth of new, healthy cells when injected. PRP has been used to enhance an array of other anti-aging procedures including:

- Microneedling
- VIVACE skin rejuvenation
- Hair growth restoration
- Facial surgeries
- Natural collagen production
- Scar revision
