# Our Story! Our Mission! Your Beauty!

**Trust your instincts!**

We started this journey two years ago with a dream, a vision and the determination to build a practice that we would be extremely proud of. From the onset, the foundation of our practice was laid with trust and our fabric was woven with a deep sense of compassion! As we commemorate the anniversary of That Face Facial Plastic Surgery, –we reflect on the remarkable journey that has brought us to this moment – a journey defined by collaboration, passion, transformation, and an unwavering commitment to your beauty, well-being and results.

We extend our sincerest gratitude to you for entrusting us with your beautiful face and supporting us as we continue to grow as a practice. Your confidence in our expertise has been the cornerstone of our success and has inspired us to continually strive for excellence in facial rejuvenation.

Thank you for trusting your instincts and for being an important part of our That Face family!

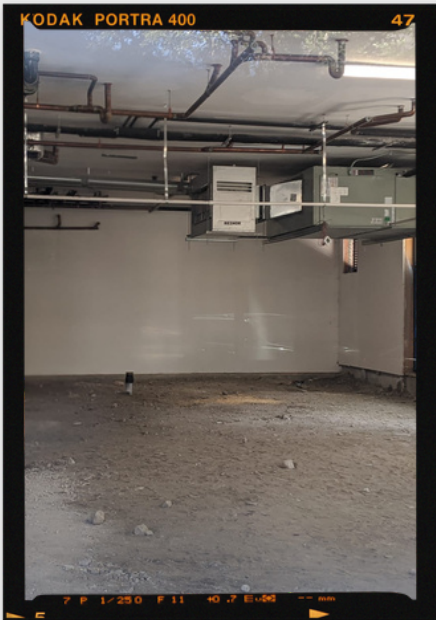

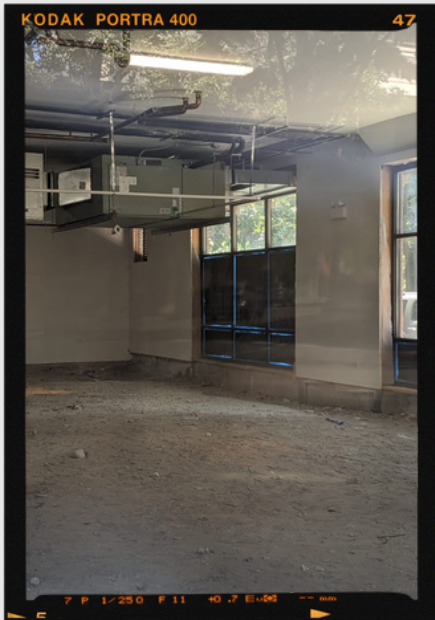

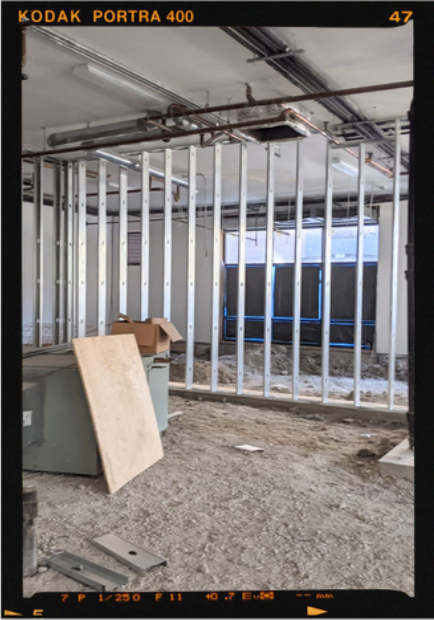

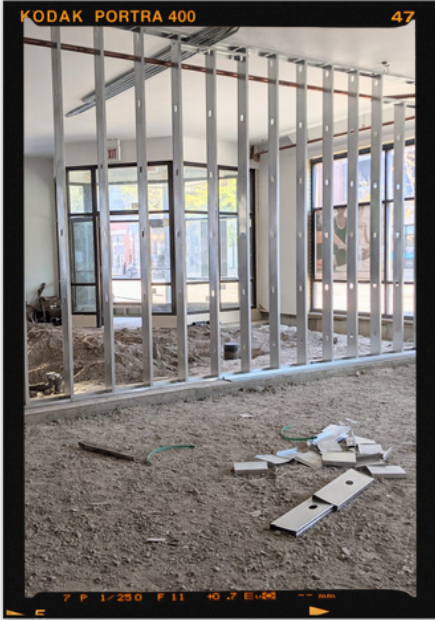

*Dr. Sulyman-Scott*

# Our Story

We're really proud of the clinic we've carefully built from the ground up. Every corner of this clinic was designed with the comfort and safety of our patients in mind and every milestone achieved has been a testament to our unwavering commitment to providing excellent care and ensuring our patients feel and look beautiful.

# Q&A

*Dr. Sulyman-Scott*

---

## **What is your favorite procedure?**

Anything that makes my patients feel beautiful.

## **Do you have a favorite technique?**

Anything that can be done through inconspicuous incisions for optimal results.

## **What do you consider your best surgical asset?**

My best surgical asset is my aesthetic eye because it allows me to keenly identify areas that need improvement and to execute the treatment in a way that provides naturally **beautiful results**.

## **What is your best assessment tool?**

Before and after photos, this provides snap-shots of specific times. It's not uncommon for us all to quickly get used to a new rejuvenated appearance and forget what things used to look like.

## **Skincare is essential. What is your favorite skincare product?**

I literally pump the bottles to get every last drop of the Ultraceuticals Brightening Serum and That Face True Tone SPF.

# Q&A

*Dr. Sulyman-Scott*

---

**Given the constant advancements in technology and the emergence of new surgical tools, what are your thoughts on the utilization of piezo rhinoplasty or ultrasonic techniques in surgery?**

A machine doesn't give you results in surgery, so it doesn't matter what you use. All patients care about is results- Laser vs a Scalpel, doesn't matter as long as the result is a happy patient.

**What has been your biggest surgical case?**

Complete Facial Rejuvenation( facelift, neck lift, blepharoplasty, brow lift, and fat grafting).

**What's the best advice you would give to a patient?**

Let your beauty be defined by YOU, don't let others tell you how to be beautiful.

**How do you define beauty?**

Beauty is very subjective, but my definition is whatever makes each person feel confident enough to be their authentic self

**Where do you go for fresh inspiration?**

I find fresh inspiration through traveling, interacting, and experiencing the beauty of people

# Your Beauty

Before, a canvas awaiting the gentle stroke of refinement; after, a masterpiece unveiled, revealing the patient's inherent beauty in its purest form. Each image tells a story of rejuvenation, symmetry, and newfound confidence. With surgical precision and a keen eye for aesthetic harmony, Dr. Sulyman-Scott sculpts dreams into reality, enhancing natural features while preserving individuality.

We extend our heartfelt gratitude to each of you who graciously consented to share your before and after photos. You've not only showcased the remarkable work of Dr. Sulyman-Scott, but also offered a beacon of hope and inspiration to those considering their own journey of rejuvenation.
