# Rhinoplasty Done Right: Patience, Precision, and Picking the Best Surgeon

---

Did you know that Rhinoplasty (Nose Job) is considered one of the most complicated surgeries in plastic surgery?

The nose is complex– is a delicate, three-dimensional structure in the middle of the face. Even small changes can have a big impact on how the nose looks and functions.

Each rhinoplasty is customized to the patient's needs, so there's no set order of steps and a small margin for error.

# Rhinoplasty Done Right: Patience, Precision, and Picking the Best Surgeon

---

The nose isn't just about appearance—it's also vital for breathing and overall function. That's why choosing a surgeon who deeply understands the nose's anatomy is essential.

---

While surgeries abroad might seem less expensive, they often come with hidden costs and risks. Certain countries can offer lower prices partly because their economies are different, making the dollar stretch further.

However, lower costs can also mean less regulation, fewer safety standards, and limited access to follow-up care.

Those impressive before-and-after photos you see online? They show the end of a year-long process—not an instant fix.

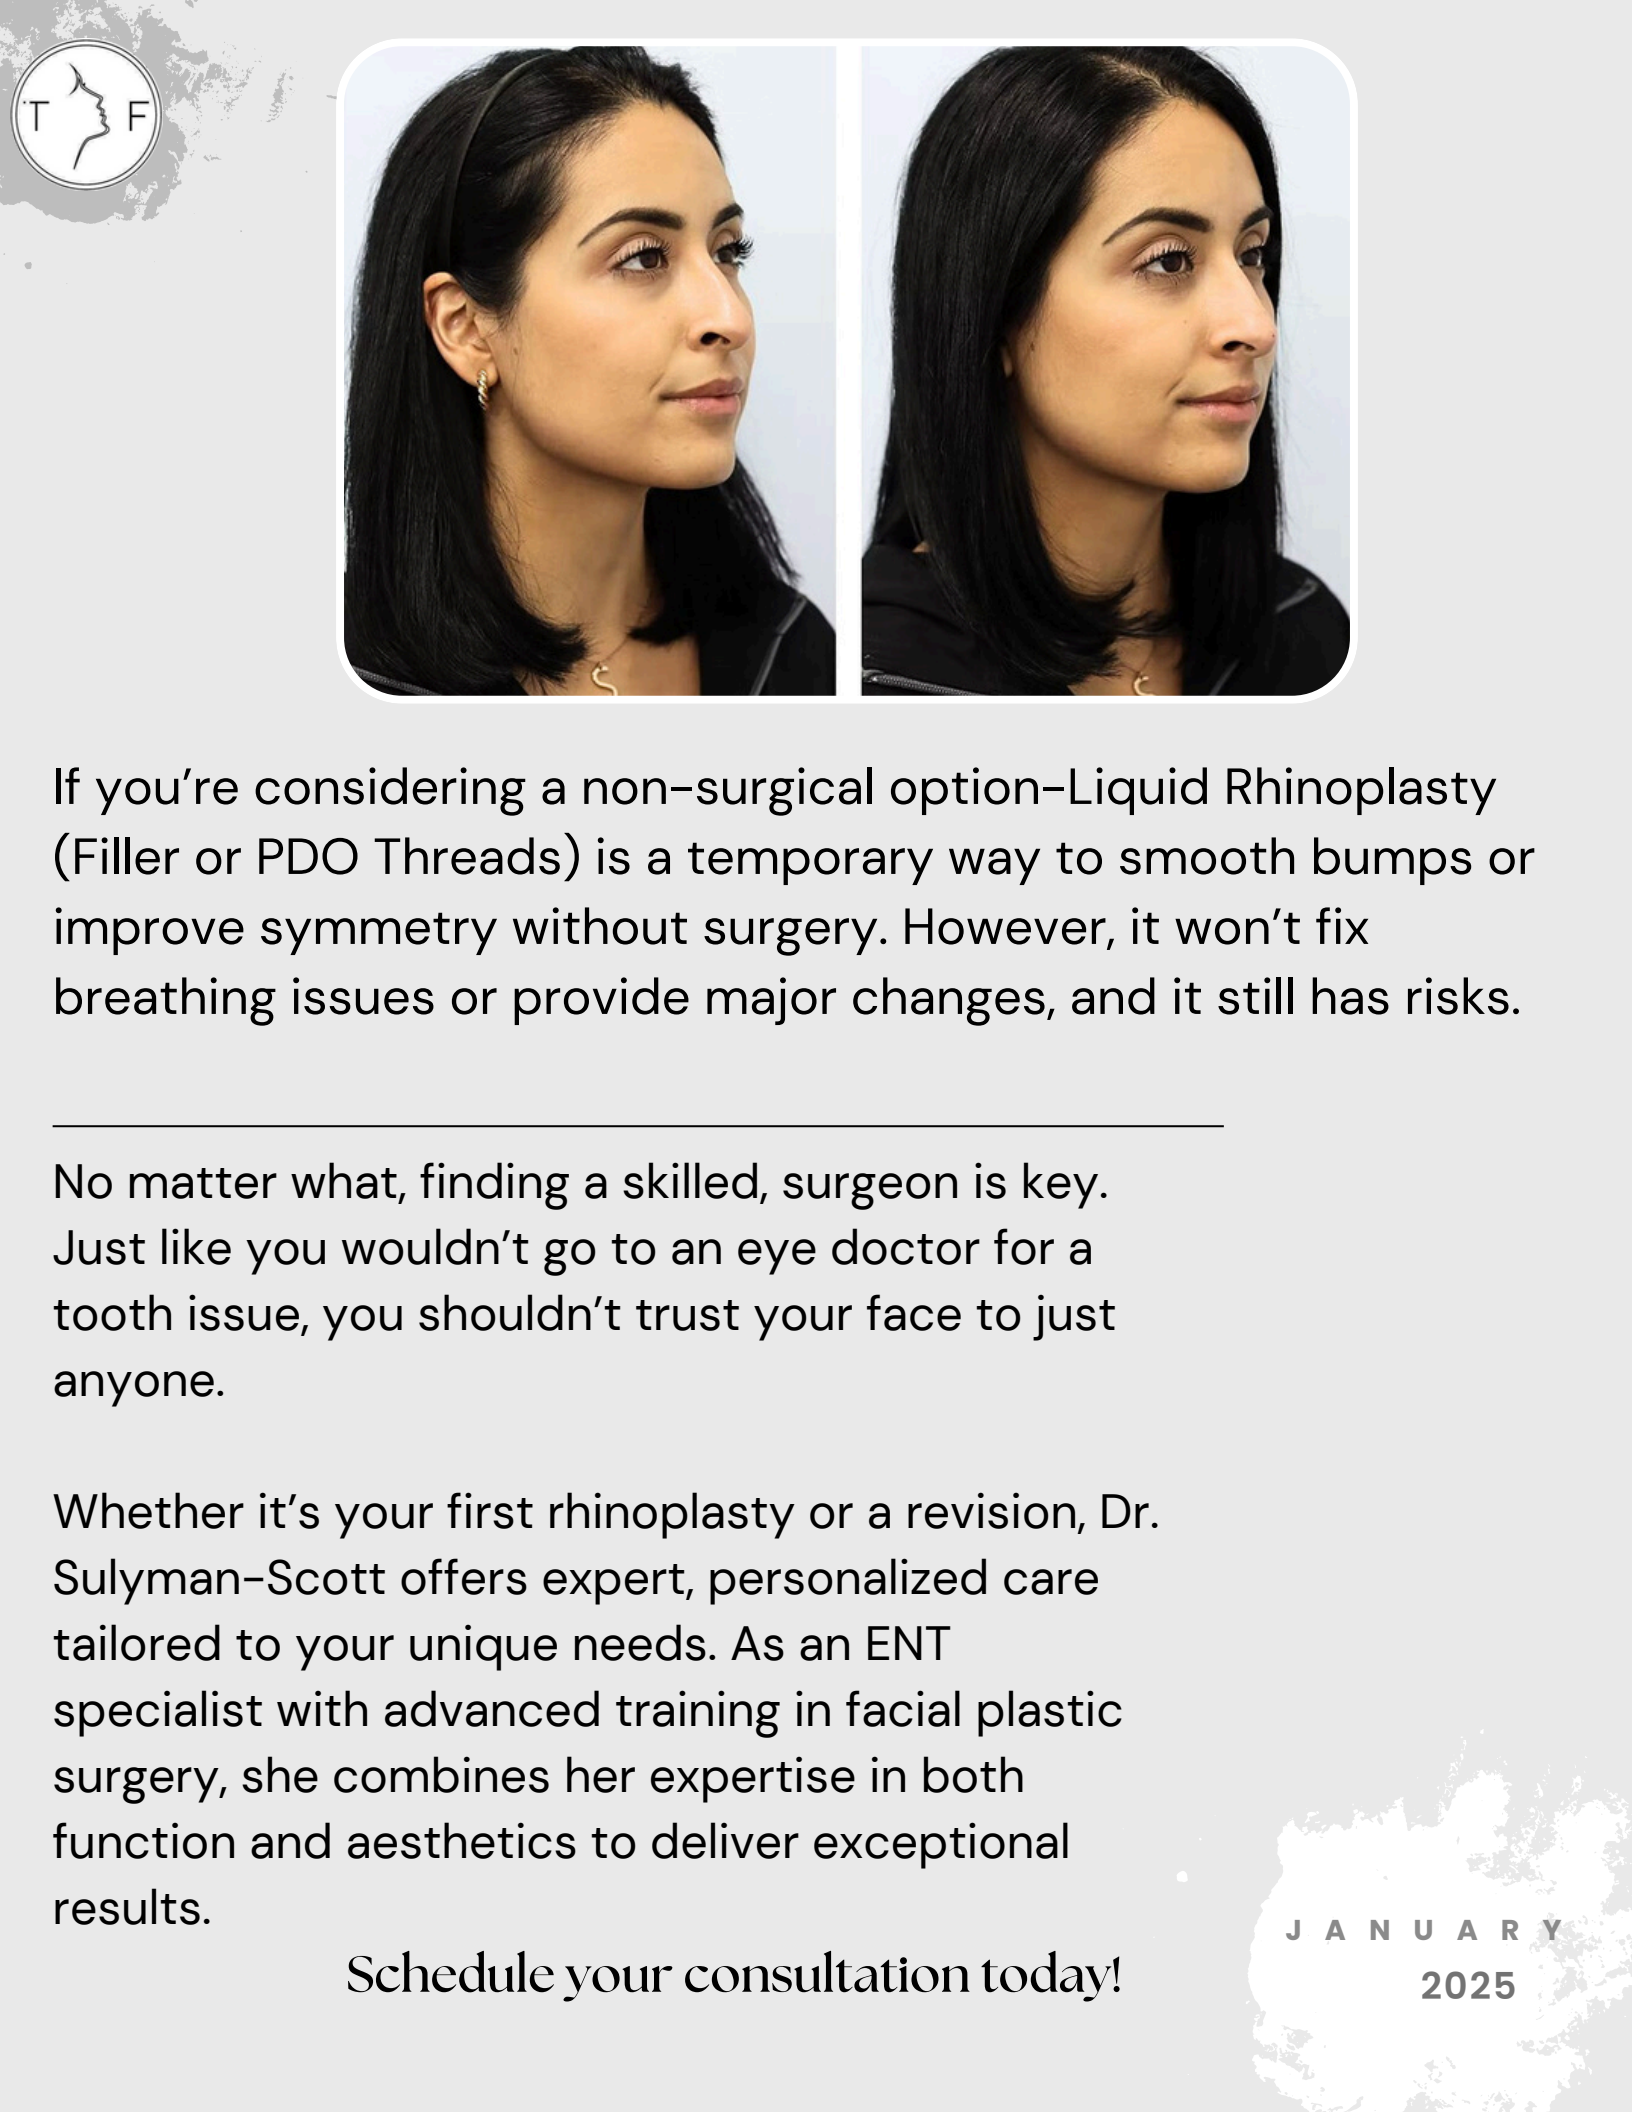

---

Rhinoplasty results take time. It can take a full year for swelling to go down and for your nose to reveal its final shape. Follow-up visits during this period are important to ensure proper healing.

*\*If you opt for surgery abroad, attending these critical appointments can be difficult, and complications could result in extra costs and stress.*

JANUARY  
2025

If you're considering a non-surgical option-Liquid Rhinoplasty (Filler or PDO Threads) is a temporary way to smooth bumps or improve symmetry without surgery. However, it won't fix breathing issues or provide major changes, and it still has risks.

No matter what, finding a skilled, surgeon is key. Just like you wouldn't go to an eye doctor for a tooth issue, you shouldn't trust your face to just anyone.

Whether it's your first rhinoplasty or a revision, Dr. Sulyman-Scott offers expert, personalized care tailored to your unique needs. As an ENT specialist with advanced training in facial plastic surgery, she combines her expertise in both function and aesthetics to deliver exceptional results.

# Bye Bye Dry Skin!

**Time to upgrade your moisturizer!** Cold weather calls for a richer, more hydrating formula. Hydrate and protect your skin with our Ultra Rich Moisturizer Cream, packed with nourishing ingredients to repair and shield your skin from the elements. For optimal results, apply Ultra Rich Moisturizer Cream morning and night.

---

## Winter Skincare Routine

1. **Cleanse Gently:** Start with *Ultra Balancing Gel Cleanser* to remove impurities without stripping your skin.
2. **Hydrate:** Apply a few drops of *Ultra B<sup>2</sup> Hydrating Serum* to lock in moisture.
3. **Moisturize:** Follow with *Ultra Rich Moisturizer Cream* to seal in hydration and keep your skin soft and smooth.
4. **Protect:** Even in winter, UV rays can harm your skin, even on cloudy days or through windows. Always finish your routine with *That Face True Tone Sunscreen* to keep your skin protected.

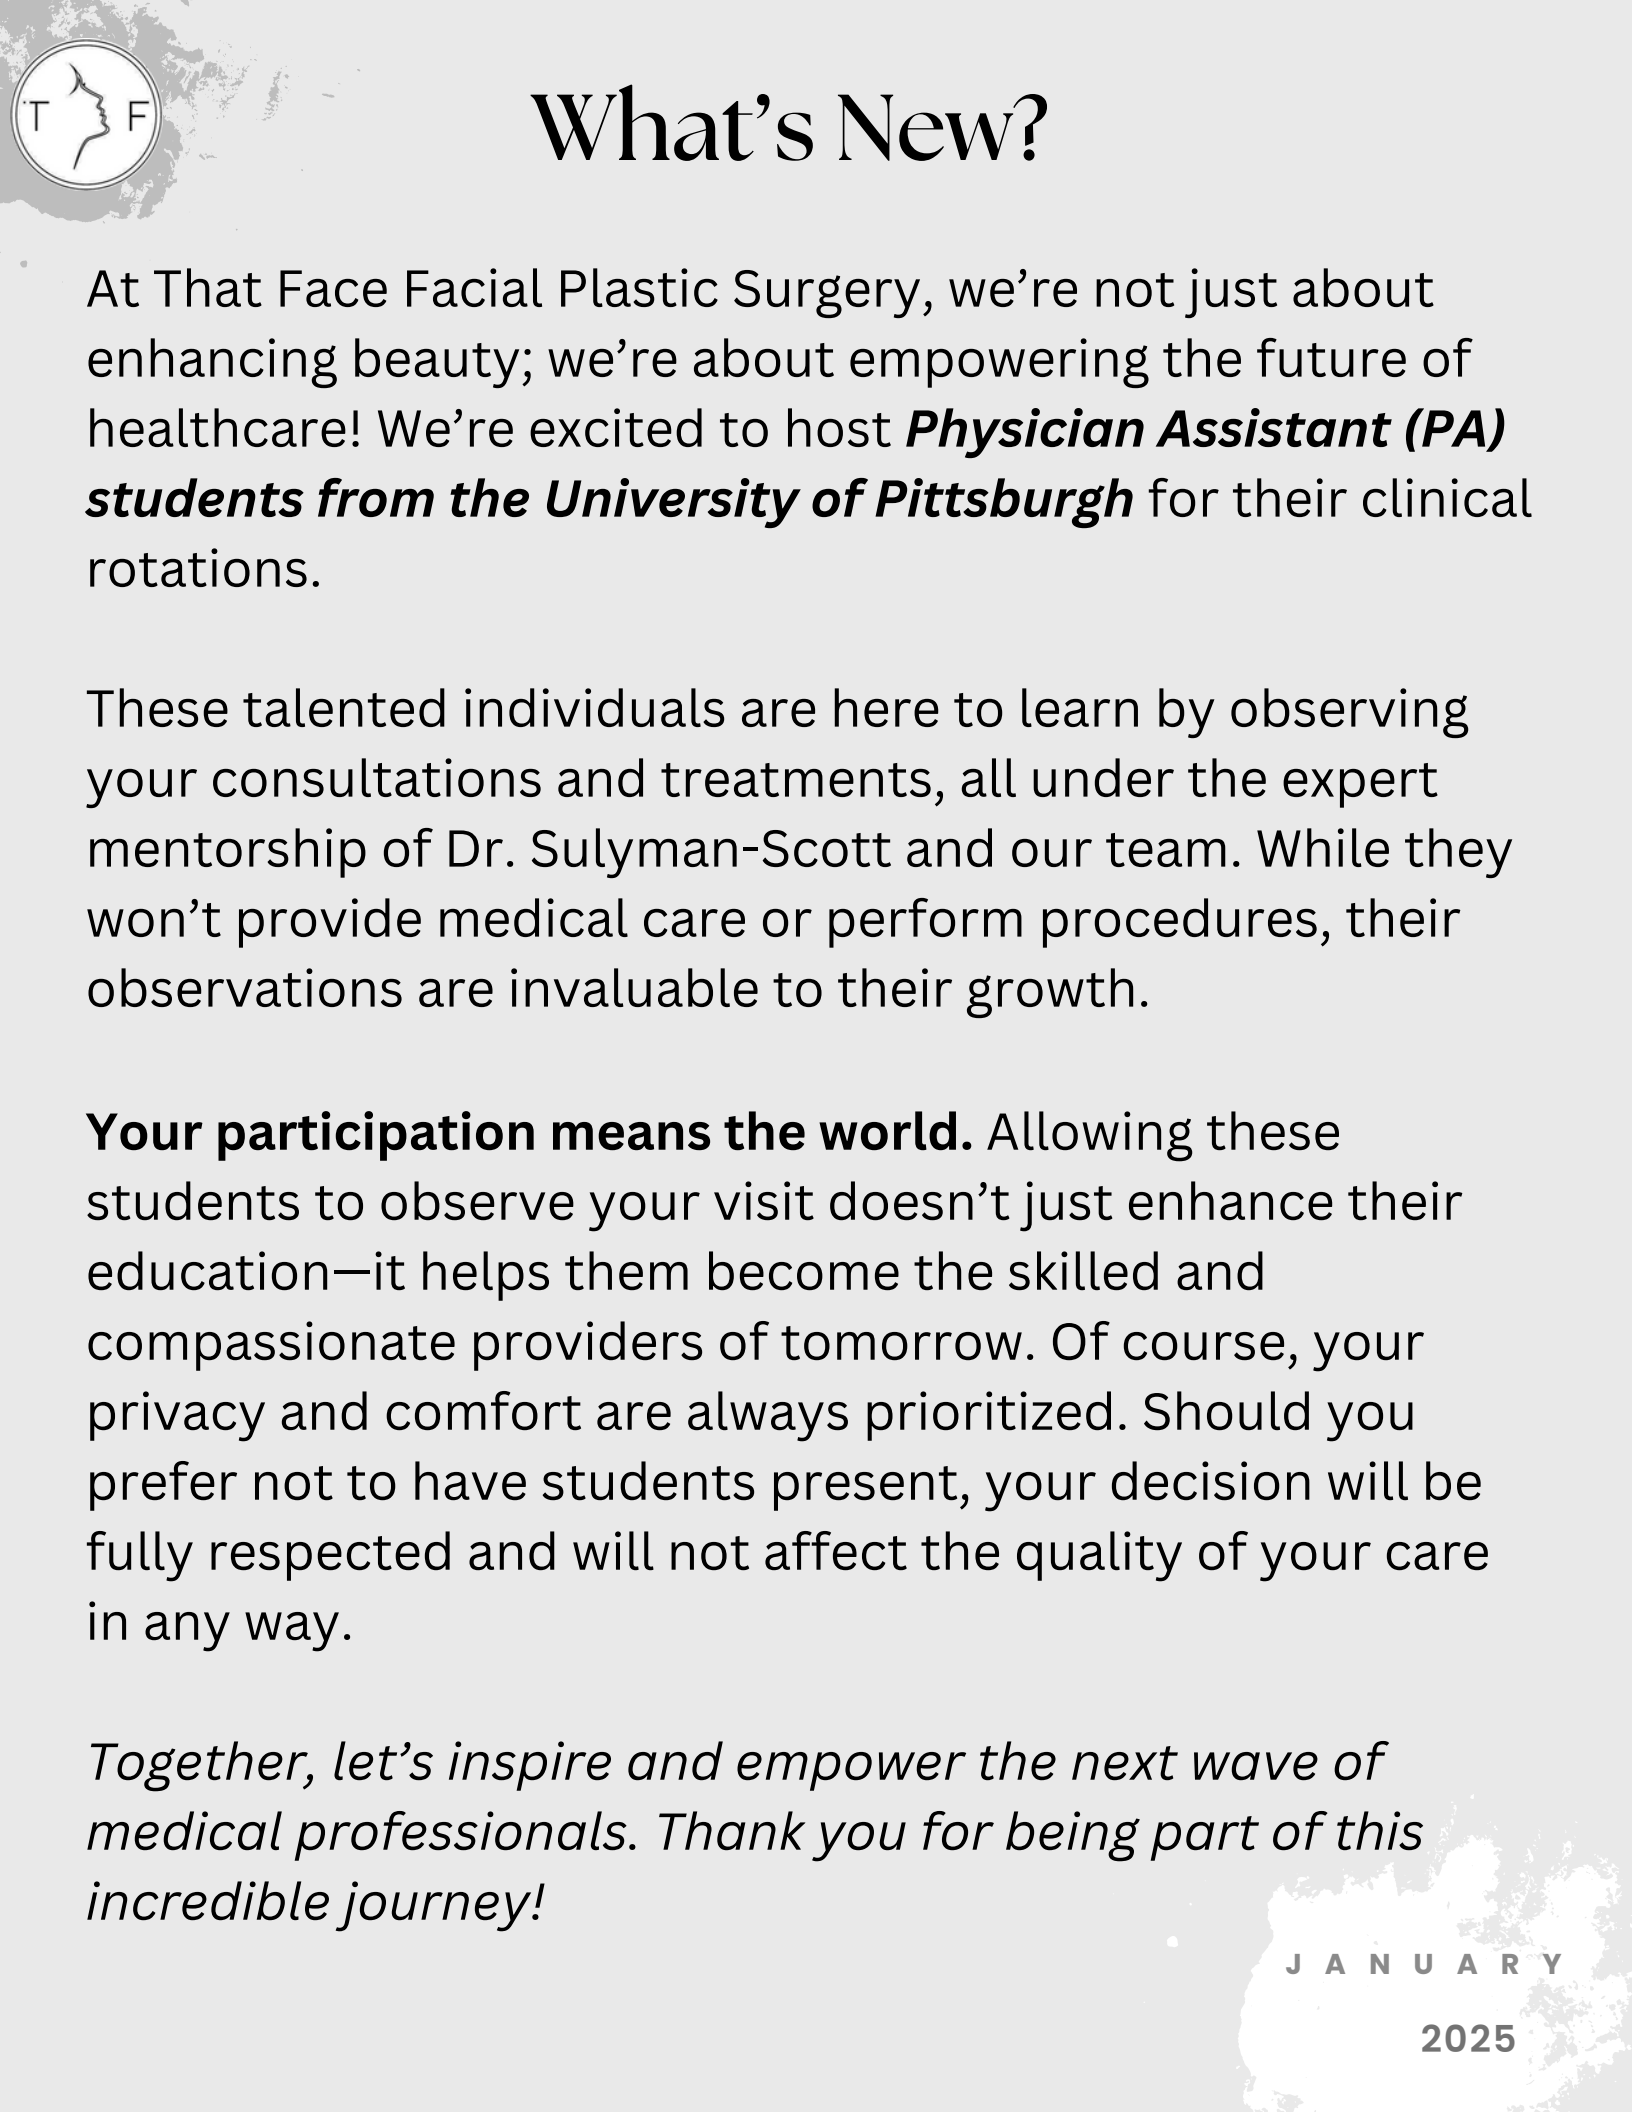

---

Visit *That Face Facial Plastic Surgery* to purchase, or place your order through our website to have it delivered straight to your door!

**Receive 10% off on  
your 3rd product  
purchase (*in-clinic  
only*)**

# What's New?

At That Face Facial Plastic Surgery, we're not just about enhancing beauty; we're about empowering the future of healthcare! We're excited to host ***Physician Assistant (PA) students from the University of Pittsburgh*** for their clinical rotations.

These talented individuals are here to learn by observing your consultations and treatments, all under the expert mentorship of Dr. Sulyman-Scott and our team. While they won't provide medical care or perform procedures, their observations are invaluable to their growth.

**Your participation means the world.** Allowing these students to observe your visit doesn't just enhance their education—it helps them become the skilled and compassionate providers of tomorrow. Of course, your privacy and comfort are always prioritized. Should you prefer not to have students present, your decision will be fully respected and will not affect the quality of your care in any way.

*Together, let's inspire and empower the next wave of medical professionals. Thank you for being part of this incredible journey!*
