- Happy Anniversary to our Loyal Patients.

Happy Anniversary

Build a strong foundation and you can weather any storm! That Face was built on a solid foundation of integrity, dedication to excellence, consistency, compassion and an unwavering commitment to the care of our patients. Three years later, That Face is standing strong and thriving just because you have entrusted us with your beautiful face.

April marks the anniversary of *That Face Facial Plastic Surgery*, and we're celebrating more than just another year in business, we're celebrating **you**. Our patients are the heart of everything we do, and we're so grateful to every patient who has trusted us with their face, their story, and journey. Our vision has always been clear: ***"Everyone deserves to feel beautiful"***.

From the bottom of our hearts, thank you.

Dr. Sulyman-Scott, Taylor RN, & Mayela

Facial Balancing – What It Is & How It Works

Despite the buzz, facial balancing isn't a brand-new procedure. It's simply a term used to describe a customized combination of non-surgical treatments like fillers, Botox, and skin tightening to create symmetry and harmony in facial features.

At **That Face Facial Plastic Surgery**, we've been offering these treatments all along! The goal is to enhance natural beauty by refining proportions. Whether that's creating a defined jawline, adding volume to sunken areas, or creating a more youthful profile.

It may seem like there's a magic formula, but results depend on your unique features, expertise of your provider and the specific treatments used.

If you're curious about what **facial balancing** could do for you, we'd love to see you for a consultation. Let's create a plan that's tailored to you!

Facial Balancing: A Customized Approach to Natural Beauty

Facial balancing is about enhancing your entire face as a whole, rather than just focusing on one feature. Balanced, natural-looking result often requires a combination of treatments/products rather than a single one.

We customize facial balancing to your unique features, using treatments like:

- ✓ **Dermal Fillers** – For jawline, chin, cheeks, temple, periorbital or lip enhancement
- ✓ **Neurotoxins (Botox/Dysport/Xeomin)** – To smooth wrinkles, reduce masseter size and refine facial proportions
- ✓ **Skin Tightening & Collagen Boosting (PDO Threads, Microneedling with RF, CO2 laser)** . – For a firmer, more youthful look

Note: At That Face we complete a detailed consultation to determine what treatments are needed to achieve your personal goals. Every face is unique and some faces may only need subtle enhancements, while others require more in-depth treatment to achieve full facial harmony.

Realistic Expectations: Your Face, Only Better

The goal of facial balancing is to give you natural appearing results that enhance your unique facial features. Some improvements may be subtle, and others may be dramatic.

Real Patients, Real Results: Beware of social media before and after photos which make transformations appear very dramatic. The use of filters, lighting, position of the patient, and makeup could enhance the results in some social media posts.

Before

After (2wk Post Treatment)

At That Face, we value honest display of real results —you'll always see unfiltered before-and-after photos with consistent lighting and standard poses.

2025

We're proud to be the best decision for so many of our patients. Here's what they have to say about their experience with us.

**Had the absolute best experience here!
Everyone in the office is professional but also fun and make me feel so comfortable before and during my procedure.**
★★★★★

**I can't say enough about my results . I would highly recommend her. Five stars from start to finish .
Thank you**
