Glow is Great Collagen is Better

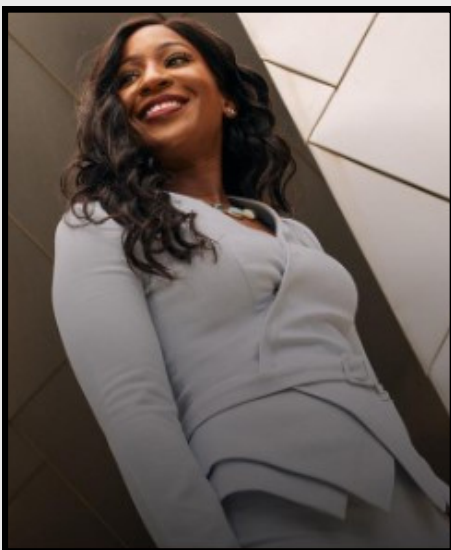

*Why microneedling may be the treatment
your skincare routine is missing!*

We all love that fresh, smooth feeling after a facial.

BUT IF YOU'RE LOOKING TO IMPROVE:

- ◆ Texture
- ◆ Pores
- ◆ Fine lines
- ◆ The appearance of Acne scarring and other Facial scars
- ◆ Overall skin quality

It may be time to look beyond the surface.

Schedule Your Consultation

Dr. Sulyman-Scott
is patient-focused and highly accomplished double-board-certified Facial Plastic & ENT Surgeon with a fresh approach to plastic surgery and non-surgical treatments.

What Makes Microneedling Different?

Microneedling creates controlled micro-injuries that activate your skin's natural healing response.

As your skin repairs itself, it stimulates the production of collagen and elastin, helping support firmer, smoother and healthier-looking skin.

THINK BEYOND THE SURFACE

Facials → Hydrate + Refresh

Microdermabrasion → Exfoliate + Polish

Microneedling → Stimulate + Remodel

The Results THE GLOW THAT LAST FOR MONTHS ✨

Before

After

Patient's goal: To improve her skin tone and texture.

Unlike a treatment where the main payoff is that immediate post-treatment glow,

microneedling starts a rejuvenation process that continues after treatment.

Your skin can do more than glow. It can rebuild.

The Results

THE GLOW THAT LAST FOR MONTHS ✨

Before

After

As your skin repairs itself, collagen production and remodeling continue in the weeks that follow—helping improve the appearance of texture, tone and overall skin quality over time.

Patient's goal: To improve her scar's hyperpigmentation and texture

Microneedling Downtime

What to Expect & How to Protect Your Results

A Normal Part of the Process

Your skin may look pink or red and feel warm, tight, or sensitive for a few days. Mild dryness, flaking, or swelling can also occur as your skin recovers.

Protect Your Results ☀️

Before: Avoid excessive sun exposure and arrive with skin that is not sunburned or irritated.

After: Your freshly treated skin needs extra protection.

- ☀️ Limit direct sun exposure
- ☀️ Skip tanning
- ☀️ Wear broad-spectrum greater than SPF 30+
- ☀️ Add a hat or seek shade outdoors

Planning a Special Event?

Give your skin time to recover before a big event, ideally 5-7 days.

[Write a Review](#)

We're proud to be the best decision for so many of our patients. Here's what they have to say about their experience with us.

I had a real consultation with the doctor; she is extremely knowledgeable, patient and answered all my concerns.

The office itself is beautiful. It's refined, thoughtfully designed, and has a lot of personality without feeling cold or overly clinical.

At That Face, our patients are the heart of everything we do.
