

luoli 2013

Dear 申已 (Shen Yi) and Va... (Va...)

I think this is a great idea. We are working on organising a fund-raising exhibition for the world of Chinese art.

Aaron will exhibit his work in an exhibition of Chinese art. On 06/13, at a real PM, I wrote a plan for the exhibition.

Hi Aaron, we have received your first exhibition proposal. It looks very interesting. We have discussed it and we are happy to help you.

Could you please send us a look at the proposal from the artist. So I can see the details of the exhibition.

The exhibition will be held in a gallery. The artist's work will be shown in a series of rooms. We are looking for a space that is suitable for the exhibition.

If the artist is interested, we will contact them. We are looking for a space that is suitable for the exhibition. We are looking for a space that is suitable for the exhibition.

We will contact the artist if they are interested. We are looking for a space that is suitable for the exhibition.

Program 1 for A4 Paper

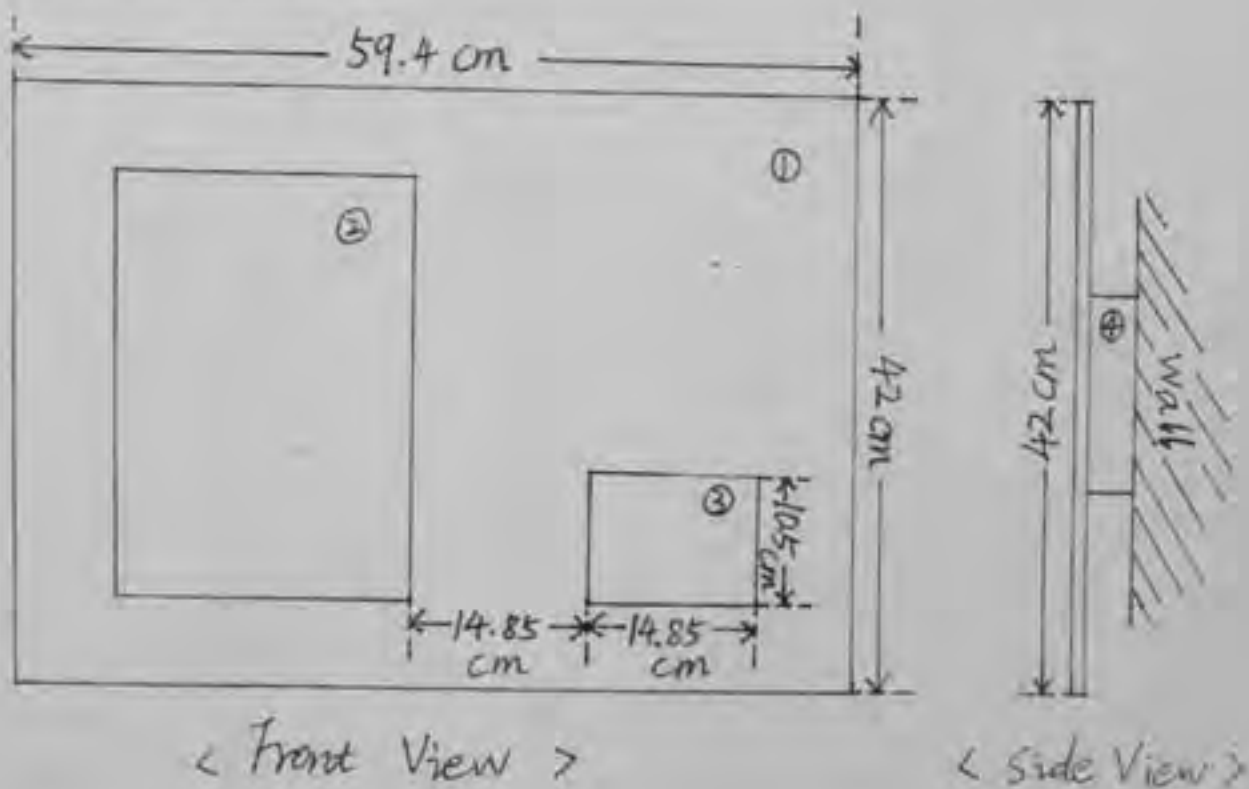

Title: A Piece Of A4 Paper

Material & tools: A piece of A4 paper, Straightedge, Cutting knife

How to show this installation:

1. Cut the width side of the A4 paper in 1mm to make a imperceptible difference.
2. Paste the silp of paper which cut in step 1 on the instruction as you wish.
3. Show the A4 paper and the instruction in the same horizontal line with a space length of 14.85cm.
4. Paste both the A4 paper and the instruction on the middle of the light brown cardboard (42*59.4*0.5cm).
5. Fix the cardboard to the the wall with a space length of 2cm.

The Sketch Of the Installation:

P.S :

① Cardboard, $42 \times 59.4 \times 0.5$ cm.

② Incomplete A4 paper.

③ Installation, 10.5×14.85 cm, the same material as ②.

① + ② + ③ = the whole installation.

Size ① = $(21 \times 29.7 \text{ cm}) \times 2 = 42 \times 59.4 \text{ cm}$.

Size ③ = $(21 \times 29.7 \text{ cm}) \div 2 = 10.5 \times 14.85 \text{ cm}$.
