

MSC Seaside Highlights

Known as “the ship that follows the sun,” MSC Seaside — which is currently under construction at Fincantieri’s shipyard in Monfalcone, Italy — is set to debut in December 2017 and sail year-round from PortMiami to the Caribbean. The revolutionary MSC Seaside — which will be one of the hottest and most state of the art ships in the industry — will be the first MSC Cruises’ ship to head directly to the U.S from the shipyard and the first MSC ship to be christened in the U.S.

Ultramodern Spectacular Accommodations and Public Spaces

- ☀ **New open modular connected staterooms:** for large families or groups, accommodating up to 10 people
- ☀ **Majority of staterooms feature private expansive balconies:** 73 percent of staterooms will have a balcony
- ☀ **Luxury suites with private Jacuzzis and hanging gardens**
- ☀ **Terraced balcony staterooms:** An innovative design feature in which a portion of the balcony is uncovered, allowing guests to relax in the sunshine on their own private terrace.
- ☀ **Enhanced MSC Yacht Club:** ‘Ship within a ship’ concept offering added exclusivity and privacy. Includes 86 suites, including two royal suites, with large living room and large balcony with dining facilities and private whirlpool. Benefits for MSCY Yacht Club guests include priority check-in and check-out reception; signature Butler service; dedicated 24-hour concierge; exclusive private solarium, lounge and pool; 24/7 complimentary beverages within the MSC Yacht Club area; and a private MSC Yacht Club restaurant.
- ☀ **Bold, Innovative Design with Breathtaking Views:** Two-deck glass walled atrium and panoramic exterior elevators, with the aft of the ship resembling a Miami Beach condo tower.

Key Ship Details

Gross Tonnage	160,000
Total Staterooms	2,067
Guests, Double Occupancy	4,140
Guests, Total Capacity	5,179
Crew (approximate)	1,413
Arrival in Miami	Dec. 21, 2017
Guests Decks	13

- ☀ **360 degree seafront promenade on Deck 8:** Designed to bring guests closer to the sea, will include indoor/outdoor shops and restaurants, as well as a full buffet area and a pool, which are traditionally located on a cruise ship's higher decks.

Onboard Entertainment and Family Activities

- ☀ **Most Interactive Aqua Park at Sea:** First to feature interactive Slideboarding technology, which combines a unique water slide and an interactive video game all-in-one. Families will also enjoy two decks of fun and activities, including an adventure trail and four different water slides (one indoor and one outdoor)
- ☀ **6 public pools,** including a 27,500 sq. ft. main pool and an aft pool with breathtaking sea views.
- ☀ **Two unique outdoor catwalks** that extend beyond the edge of the ship, with all glass railings and a glass floor, giving guests the feeling that they are walking on water.
- ☀ **Interactive 5D Cinema,** which not only includes moving seats and amazing special effects, but also allows guests to interact with the movie – providing guests with an entertaining, fun and challenging attraction.
- ☀ **Indoor and outdoor theaters** for daily entertainment and Broadway style shows.
- ☀ **Other standout activities, include:** Full-sized bowling alley, two of the longest zip lines at sea, a dedicated kids only restaurant, and dedicated LEGO and Chicco designed play areas.
- ☀ **Wide Choice of Indoor/Outdoor Dining:** 11 distinct dining venues, featuring cuisines from all around the world, including: a pan-Asian specialty restaurant in partnership with Celebrity Chef Roy Yamaguchi; a signature seafood restaurant; and a Butcher's Cut American steakhouse where guests can choose their favorite steak from glass-fronted meat aging fridges. Dining options will also include two buffets open 20 hours a day, including a dedicated family buffet.

A New Standard in Eco-Friendliness

- ☀ **Advanced Water Treatment (AWT):** to remove pollutants and hazardous substances from waste water
- ☀ **Garbage treatment plant,** with shredders, compactor and glass crusher for highly efficient solid waste management
- ☀ **Scrubbers** allowing for SO_x, PM and CO₂ emissions, in line with new international maritime regulations
- ☀ **Antifouling paints,** optimized hull lines, propellers and rudders to reduce drag and fuel consumption
- ☀ **LED lighting,** meaning lower energy demand and significantly lower fuel consumption
- ☀ **Advanced heat recovery plant** to feed fresh water, laundry, swimming pools and hot water

Advanced Guest-Friendly Technology

- ☀ **Smart Ship Technology: Near Field Communication (NFC), using a cruise card, bracelet or smartphone. Uses are as follows:**
 - Geolocation of children
 - Stateroom Access
 - Access to in-stateroom safe
 - Onboard payments
 - Bookings and orders (excursions, theatre, restaurants) via interactive screens
 - Embarkation and Disembarkation
 - Specific ship area access (Yacht Club)
- ☀ **iBeacon technology: communicate with guests' mobile devices and send push notifications about info and offers**
