Unique design features

Inspired by the beach condos that have made Miami famous, *MSC Seaside* has a number of distinctive and innovative design features unlike any other ship. Two unique glass-floored catwalks and a 40m high 'Bridge of Sighs' give guests a view of the ocean like never before. A waterfront boardwalk, the widest on any ship ever built, wraps around the ship, while panoramic lifts connect everything together.

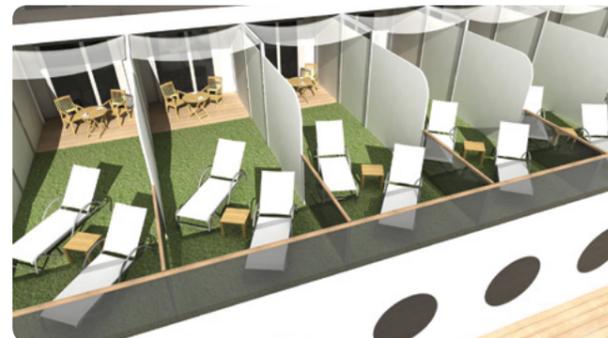

A connected cruise experience

MSC for Me is the digital innovation program that uses the latest cutting-edge technology to connect holidaymakers seamlessly with the experiences that matter to them, whether at sea or on land.

Variety of accommodation

Developed to offer the perfect accommodation for every type of guest, the ship offers flexible modular cabins for groups of up to ten guests, exclusive aft corner suites with stunning sea views, terraced balcony cabins with extended private terraces overlooking the waterfront boardwalk and luxurious suites with their own outdoor whirlpool bath.

Rich and varied entertainment

MSC Seaside doesn't just feature a full-sized bowling alley, XD cinema and the longest zip line at sea, but also the most interactive aqua park at sea with five water attractions: the first cruise ship Slideboarding™ attraction, 160 metre long duelling body slides and two spray areas for kids.

Extensive dining options

MSC Seaside will offer an extensive choice of indoor and outdoor dining venues with a tempting range of international restaurants. One of the highlights is Asian Market Kitchen from renowned Pan-Asian chef Roy Yamaguchi. Other highlights include a French venue and alongside a luxury seafood restaurant.

STYLISH DESIGN

MSC Seaside, the 'ship that follows the sun,' is MSC Cruises' fifth consecutive, brand new prototype, meaning that it has been specifically developed to meet the need of today's cruise guest.

As the first ship of the Seaside generation, it has been inspired by a pioneering beach condo concept, bringing guests and the sea closer as well as enhancing the beauty of the natural surroundings while at sea.

This concept comes to life in a number of truly unique ways

Two glass-floored catwalks

Two 40m long catwalks unlike anything else at sea, with glass balustrades and a glass floor, will give guests the feeling that they are walking on water.

Waterfront boardwalk

The waterfront boardwalk is the widest on any ship ever built. This stunning public space wraps the ship with a tempting array of bars and restaurants so that guests can enjoy al fresco dining and drinking, as well as strolling along, taking in the fresh sea air.

Bridge of Sighs

Not for the faint-hearted. A single glass-bottomed path leads out from the ship, 40m above the ocean on deck 16, allowing guests to see the sea and feel the wind in their hair in an experience like no other.

Panoramic glass lifts

Panoramic lifts will transport guests whilst providing stunning ocean views. They will seamlessly connect the two main pool areas on decks 16 and seven.
