

Wall Hook 2XL

Soft White

Charcoal

Evergreen

Anchor's classic wall hook range is hand crafted architectural hardware designed to enhance the sensory experience and small tactile details of interior and exterior spaces. The hardware family is expanded with the introduction of 2XL, a scaled up version of the classic Anchor wall hook. Bold in form, 2XL also introduces a new colour dynamic to an Anchor product range with the addition of the Evergreen surface option. All pieces are supplied with stainless steel fixings, powder coated to colour match the surface finish.
