

“ The biggest difference I have noticed is that she no longer gets the ugly red tear stains in her eyes and around her mouth which were really bad. Her coat is beautiful and shiny and no more ugly stains. ”

**LORNA & BRONTE**

Tear stains can be caused by many issues, including diet. Feeding a natural Pure food that's free from gluten and grains is the pawfect choice for your pet to chow down on to help keep tear stains at bay.

You may spot results straight away, but our expert vets recommend an 8-week period before your pet reaps the full rewards of a Pure diet.
