

SOL  
CATALOGUE

“The translucent nature of marble makes SOL a standout feature that is bound to be a statement piece for years to come.”

SOL combines elegance with art, an effortless piece which showcases the base material and allows the natural stone to shine as a standalone feature.

The concept behind SOL was to make it adaptable to any space, it is made entirely to your room specifications. The choice of natural stone is vast and leaves room for your imagination to run wild.

“Integrating the mirrors with the stone completed the story of Sol, it’s a minor detail but it makes a visual impact which stays with you,” says Isabella Delaney about her design. “It was important to make it a timeless piece, which I feel we have achieved.”

An oversized, integrated basin configuration incorporates contemporary industrial design to combine with SOL’s air of sophistication. SOL is the piece of luxury that all bathrooms desire.

## Features

### Integrated Sink

SOL offers endless sink options due to the custom nature of its design. SOL was designed with an integrated sink in mind due to its seamless nature and addition of luxury.

### LED Lighting

The iridescent nature of marble means that we have the opportunity to light up SOL, creating a glow that will take your breath away.

### Customisable

Being natural stone, SOL is completely customisable to suit your needs. The beauty of natural stone is how no two slabs are alike, you can feel confident that your vanity is unique to you.

### Australian-Made

Rest assured knowing that your vanity is made locally. Each piece is handcrafted to ensure that you receive the best quality product which will last a lifetime. Our vanities are designed and made in Australia.

Finishes

Natural stone selection is subject to availability. The options presented in this catalogue should only be used as a guide. Natural stone has variation and part of its beauty is that each individual slab is like no other.
