

NOOD CO. xOx
EXCLUSIVE BASIN
CATALOGUE

Limitless applications for all spaces.

Nood Co.'s range of basins has just gotten better, with our newest collaboration, the xOx basin.

When pitching the idea to Nood Co. for a 360mm basin, they were on-board with the idea straight away. Your space should not limit your design or basin options, and the xOx basin is the perfect size for any room or vanity.

Featuring a dual fine line detail, this basin can be kept minimal in classic ivory or stand-out in one of Nood Co.'s fourteen signature colours. This timeless design features a soft bullnose top edge detail. Available only at xOx.

Real beauty is on the inside.

The Nood concrete composition is a complex one. Nood concrete is made of eight highly refined components. Each component assists in a specific way, be it improving the concrete strength, the water ratio, mix integrity, water tolerance, colouring, durability and more.

Everything from Nood Co. has been a ground-up build. From product design to concrete composition, sealing to packaging, every step of the process was dreamt up, tested and approved by Nood Co.

When you buy Nood Co., you are purchasing something unique. You are buying the process, the love we willingly commit, so you can experience something with soul.

Colours

Australian-Made

All Nood Co. basins are handcrafted in Perth, Australia. A human touch is everything with Nood.

Sustainable

Zero Chemicals. Waxed in 100% organic wax. Nood basins take 96% less embodied energy to make than their ceramic equal. Each basin sold supports Carbon Positive Australia's tree planting program and reduces our carbon footprint.

Unbeatable Colour

Nood concrete is pigmented with 100% chemical-free colour, so the basins are 100% coloured throughout. Each basin has an unbeatable consistency in colour and patina, with an increased MPA to ensure product durability.
