

spa dreaming centre
surrender your body

we believe outer radiance flows
from inner harmony, and that spa
treatments have the potential to
nourish and elevate your entire being.

Our philosophy is that wellness represents a deep connection to self; a return to one's essence. The Spa Dreaming Centre and Whispering Sheoak Huts provide a sanctuary where you can rediscover your essential nature.

All spa treatments include the hire of robes, towels and lockers for your comfort. Experiences in the spa are also combined with geothermal mineral bathing to enhance your treatment and create a holistic wellbeing odyssey for mind, body and spirit. We recommend bathing prior to your treatment to enjoy deeper benefits, encourage detoxification of body toxins and promote healthy skin.

For us, it all ends and begins with the profound healing effect of water.
