

# SUSTAINABILITY GOALS

## UN's goal:

## Description of the goal:

## GLACIAL Activities relevant to the Goals:

- Ensure that everyone can live a healthy life and work for all people's well-being of all ages

- All GLACIAL suppliers must have documentation that they participate in Business Social Compliance (BSCI), which works to improve the working and living conditions of the employees in the supply chain

- Achieving gender equality, and all women's and girls' empowerment

- GLACIAL wants to be a brand for everyone and works to raise everyone's equal value regardless of ethnicity, geographical origin, religion and gender identity
- Based on GLACIAL Gender Equality, the organization is working to achieve gender equality within the company

- Ensure access to and sustainable water and sanitation for all

- To minimize the spread of hazardous chemicals, GLACIAL complies with the EU Chemicals Regulation REACH. GLACIAL uses a ISO14001 certified shipping company
- The ISO 14000 family of standards provides practical tools for companies and organizations of all kinds looking to manage their environmental responsibilities
- In a world of overconsumption of plastic bottles, GLACIAL offers an alternative that contributes to a drastic reduction in the consumption of plastic bottles

## UN's goal:

## Description of the goal:

- Seek for inclusive and long-term sustainable economic growth, full and productive employment with decent working conditions for all

## GLACIAL Activities relevant to the Goals:

- GLACIAL works with suppliers who are members of the Business Social Compliance Initiative (BSCI) - a business-oriented collaborative initiative aimed at improving working conditions, protecting employees' rights and promoting a safe and secure work environment. Implementation of BSCI's Code of Conduct involves systematic work on follow-up, education and improvement in the supply chain

- Promote Sustainable Consumption and Production Patterns

- The entire GLACIAL sustainability strategy aims at making production and consumption more sustainable. minimize the negative effects of the operation, manage risks and take care of opportunities across the entire value chain, from raw materials, production, sales and use. We are a new brand and still learning how to achieve our demands towards our suppliers. As our quantities grows we will make even higher demands
- GLACIAL wants to guide consumers to make sustainable choice. A good choice is made of Recycled, or Durable Materials

- Conserving and utilizing the garden and marine resources in a sustainable way with a view to achieving sustainable development

- To prevent the spread of harmful chemicals, GLACIAL follows the EU Chemical Regulation REACH
- GLACIAL bottles are made of recycled steel. GLACIAL uses a ISO14001 certified shipping company (The ISO 14000 family of standards provides practical tools for companies and organizations of all kinds looking to manage their environmental responsibilities.)
- In a world of overconsumption of plastic bottles, GLACIAL offers an alternative that contributes to a drastic reduction in the consumption of plastic bottles. A million plastic bottles are bought around the world every minute and the number will jump another 20% by 2021, creating an environmental crisis some campaigners predict will be as serious as climate change
