

Measure right — for a good fit.

Carefully follow our measuring tips below to make sure you get the right size. Snickers Workwear keeps all standard sizes in stock for speedy deliveries (see specific garment for the standard size range). We also offer special sizes — delivery may take a little longer, but it's well worth it. Outside sizes are available to order with 50% extra surcharge.

A. Body length.

Top of the head to the sole of the foot.

B. Chest.

Chest width, horizontally at the widest place.

C. Waist.

For One-Piece trousers, Overalls and Jackets. Waist width horizontally at navel height.

D. Lower waist.

For Trousers. Lower waist width at the place you wear your trousers.

E. Seat.

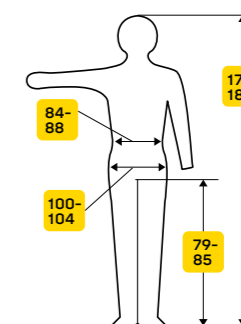

Seat width, horizontally at the widest place.

F. Inside leg.

Crotch to the sole of the foot. Extremely important measurement to ensure the kneepads end up in the right position.

Important measurement tips.

1. Get help from someone to take your measurements.
2. Take measurements dressed in body-tight underwear.
3. Measure tight against/around your body, but without the measuring tape being pulled so hard that it "cuts" in.
4. When measuring the inside leg, make sure the measuring tape is firmly extended.

SIZE 50 MEN

Every CE-marked garment has to have a label with a pictogram that shows the size and the body measurements of the person that the garment is intended for. This means that you always can check inside the garment to see the size.

Getting the right size.

1. Choose the right size chart below.
2. Look for your body measurements in the chart and choose the corresponding size.
3. To ensure an optimal fit – try them on for real!

MEN'S TROUSERS

MEN'S ONE-PIECE TROUSERS, BIB & BRACES

Important: It is important that you take into consideration your full waist measurement (C) when choosing the size of one-piece trousers/bib & braces. You may need a bigger size compared to on-the-waist trousers to make sure there is enough space for your stomach.

Workwear that fit the female form.

Our workwear is purposefully built to meet the specific needs of your job. And that's just as true for our women's workwear as for everything else we make. Functionality and durability where you need it, and comfort and fit where you demand it. And that of course also means that our women's workwear is specifically designed for the female anatomy. Trousers that are wider at the hips, and tops that are narrower at the waist, all for an optimal fit and efficient ergonomics.
