CCLI: # 7184424

VERSE 1

I can be real with You
Say anything and not be afraid
You made me and You like what You made
You made me and You don't make mistakes
I can be real with You

CHORUS

You take me just as I am
You'd choose me all over again
I am the one You love
I am the one You love
I don't have to prove anything
There's room at Your table for me
I am the one You love
I am the one You love

VERSE 2

I know You're proud of me
Even though I don't deserve it sometimes
No I'm not a perfect child
But I still make my Father smile
I know You're proud of me

BRIDGE

Your love Your love never fails
Your love never fails
