VERSE 1

I know You'll come through
This mountain is moving
I fix my eyes on You
If You said it You'll do it

PRE-CHORUS

Because You are God
No matter the odds
The outcome is always the same

The words on the pages
The promise You made us
Still have the final say

CHORUS

You will make a way
You always make a way

VERSE 2

I won't fear tomorrow
Cause You're already in it
My hope and my future
Is already written

PRE-CHORUS

Because You are God
No matter the odds
The outcome is always the same

The words on the pages
The promise You made us
Still have the final say

CHORUS

You will make a way
You always make a way

BRIDGE

Nothing's too hard for You
Impossible's what You do
I know You've got this too
Impossible's what You do
Nothing's too hard for You
Impossible's what You do
I know You've got this too
Impossible's what You do
