VERSE 1

You've been better to me
Than I could ever have hoped You would be
You took the mess that I was
And You have done some incredible things

You've been better to me
Than I could ever have hoped You would be
You took the mess that I was
And You have done some incredible things

PRE-CHORUS 1

You always knew there was a better me
But You loved me like I was
Filling up the spaces in between
You've always been enough

PRE-CHORUS 2

Nobody else as good
Nobody else as kind
Nobody else would lay their life down on the line
Nobody else could do it
Even if they tried
Nobody else could come and save me every time

CHORUS

You've been just that good, You're good to me
You've been just that good, so good to me
Lord without Your love where would I be
Oh my God You've sure been good to me

VERSE 2

You are making me into something
That I would never have seen
You are doing exceedingly more
Than I could ever have dreamed

You are making me into something
That I would never have seen
You are doing exceedingly more
Than I could ever have dreamed

BRIDGE

You didn't have to take my sin
But You did and I won't forget it
You didn't have to call me friend
But You did and I won't forget it

And I'm praising You because
You didn't leave me like I was
You didn't have to save my soul
But You did and I won't forget it

You didn't have to take my shame
But You did and I won't forget it
You didn't have to call my name
But You did and I won't forget it

And I'm praising You because
You didn't leave me like I was
You didn't have to save my soul
But You did and I won't forget it

You didn't have to die for me
But You did and I won't forget it
You didn't have to set me free
But You did and I won't forget it

And I'm praising You because
You didn't leave me like I was
You didn't have to save my soul
But You did and I won't forget it
