1. INTRODUCTION

Syrah Resources Limited (“Syrah” or “the Company”) is an ASX listed industrial minerals and technology company with its flagship Balama Graphite Operation in Mozambique (“Balama”) and a downstream Active Anode Material Facility in the United States (“Vidalia”). Syrah’s Vision is to be the world’s leading supplier of superior quality graphite and anode material products, working closely with customers and the supply chain to add value in battery and industrial markets.

The Board is accountable to Syrah shareholders for the performance and corporate governance of the Group. The primary role of the Board is to provide overall strategic guidance and effective oversight of Management. In accordance with its continuous disclosure obligations under the Corporations Act, the ASX Listing Rules and the ASX Corporate Governance Principles and Recommendations, Syrah has adopted this Continuous Disclosure Policy (“**Policy**”). This Policy is designed to ensure that procedures are in place so that the stock market in which the Company’s securities are listed is properly informed of matters which may have a material impact on the price at which the securities are traded.

2. PURPOSE

The purposes of this Policy is to:

- a) Set out Syrah’s policy and procedures in relation to continuous disclosure;
- b) Provide guidance to all Personnel of Syrah regarding what may be considered Material Information and to require the prompt reporting of such information to the Company Secretary for review;
- c) Ensure the market is kept fully informed of information that a reasonable person would expect to have a material effect on the price or value of Syrah Securities;
- d) Provide shareholders and the market with timely, direct and equal access to material information concerning Syrah;
- e) Promote investor confidence in the integrity of Syrah and its Securities;
- f) Ensure that all Personnel are aware of the penalties for contraventions of the relevant provisions of the Corporations Act and the ASX Listing Rules; and
- g) Prevent the selective or inadvertent disclosure of material price sensitive information

This Policy does NOT address dealing in Syrah Securities by Personnel. Personnel must also comply with Syrah’s Securities Trading Policy.

3. SCOPE

This Policy applies to all Personnel (including Directors) of the Syrah Group.

4. ROLES AND RESPONSIBILITIES

4.1 Board

Overall responsibility for compliance with Syrah's continuous disclosure obligations rests with the Board.

Board approval is required for the following matters:

- a) significant corporate actions or Company-transforming transactions or events;
- b) significant earnings upgrades or downgrades;
- c) dividend policy, guidance or declarations;
- d) any dealings by Syrah or its subsidiaries in other listed securities;
- e) any other matters determined by the Chairperson, Managing Director or the Company Secretary to be of major significance to Syrah.

All other disclosures may be approved by the Managing Director in accordance with section 4.3.

Where a matter must be urgently disclosed to the ASX that is within the Syrah Board's reserved powers, all reasonable efforts will be made to convene a Board meeting at short notice. If in the circumstances this is not possible or practicable, the Chairperson and the Chair of the Remuneration, Nomination and Governance Committee (or in his/her absence, the Managing Director) is responsible for approving the disclosure. The Syrah Board must be informed of the disclosure at the first available opportunity following the release of the announcement.

The Syrah Board also considers whether there are any matters requiring disclosure in respect of items of business that are discussed during Board meetings.

4.2 Referring matters to the Board

Announcements may also be referred to the Board for Board approval and input where the Managing Director or Company Secretary considers that it is appropriate to do so.

Subject to compliance with ASX Listing Rule 3.1, including the obligation to disclose "immediately", as set out in section 5, where the circumstances permit, draft ASX announcements will be circulated to the Board in advance for comment.

4.3 Managing Director

Except in relation to matters reserved to the Board in section 4.1, the Managing Director (or a delegate) is responsible for:

- a) liaising with the Company Secretary where there is uncertainty regarding whether disclosure is required on a specific matter;
- b) providing a final determination on whether disclosure is required to the ASX;
- c) circulating any draft release to the Company Secretary, the Chairperson and any other relevant Personnel for review; and
- d) approving the final form of the release of disclosure to the ASX.

4.4 Company Secretary

Management of communication with the ASX is the responsibility of the Company Secretary

(or a delegate).

The Company Secretary is responsible for:

- a) ensuring that there is an adequate system in place for the disclosure of all Material Information to the ASX and advising the Managing Director and Board in relation to the disclosure of information reported to the Company Secretary;
- b) monitoring compliance with this policy and reporting significant non-compliances to the Board; and
- c) co-ordinating the release of information to the ASX.

4.5 Executive Committee

The Executive Committee is responsible for actively monitoring whether there is information that may need to be disclosed to the ASX and escalating information through the appropriate channels for review and disclosure.

4.6 All personnel

What to do if you suspect you have Material Information (defined in section 5.1 below) which requires disclosure?

If you have any concerns regarding information you are privy to, please escalate it to the appropriate person outlined below without delay.

5. SYRAH'S CONTINUOUS DISCLOSURE OBLIGATION

5.1 The disclosure obligation

ASX Listing Rule 3.1 requires that Syrah must immediately notify the ASX of any information it has, or becomes aware of, concerning Syrah that a reasonable person would expect to have a material effect on the price or value of Syrah Securities ("**Material Information**").

In this context, "immediate" disclosure requires that it be made:

- a) 'promptly' (that is, as quickly as possible in the circumstances); and
- b) 'without delay' (that is, without deferring, postponing or putting it off to a later time).

ASX Listing Rule 15.7 requires that Syrah must not release this information to any other person (for example, the media or analysts), post it on its website or disseminate it via social media until it has given the information to the ASX and has received an acknowledgment that the ASX has released the information to the market.

5.2 Material effect on Syrah securities

A reasonable person would be taken to expect information to have a material effect on the price or value of Syrah Securities if it would, or would be likely to, influence persons who commonly invest in securities in deciding whether or not to subscribe for, buy or sell Syrah Securities. Syrah notes that the ASX interprets this as referring to persons who commonly buy and hold securities for a period of time based on their view of the inherent value of the security (that is, it does not include short term or intraday traders).

In forming a view as to whether a reasonable person would consider information to be material, regard should be had to the external information that is publicly available, the circumstances affecting the entity at the time, and previous disclosure to the market. Both quantitative and qualitative factors are taken into account when assessing materiality.

Examples of matters that a reasonable person would expect to have a material effect on the price or value of Syrah Securities may include the following (which are indicative only and should not be seen as an exhaustive list of matters that should be considered for disclosure):

- a) A transaction that will lead to a significant change in the nature or scale of Syrah's activities;
- b) A material mineral discovery;
- c) A material acquisition or disposal;
- d) The granting or withdrawal of a material licence;
- e) The entry into or termination of a material agreement;
- f) Becoming a plaintiff or defendant in a material lawsuit;
- g) The fact that the entity's earnings will be materially different from market expectations;
- h) The fact that the entity's performance will be materially different from any market guidance that Syrah has issued;
- i) A material change in asset values or liabilities;
- j) The appointment of a liquidator, administrator or receiver;
- k) An event of default under, or other event entitling a financier to terminate, a material financing facility;
- l) Under subscriptions or over subscriptions to an issue of securities;
- m) Giving or receiving a notice of intention to make a takeover; and
- n) Any rating applied by a rating agency to an entity or its securities and any change to such a rating.

5.3 Exceptions to immediate disclosure under Listing Rule 3.1A

Disclosure under ASX Listing Rule 3.1 is not required where each of the conditions (a) – (c) below is and remains satisfied:

- a) one or more of the following five conditions apply:
 - i. it would be a breach of a law to disclose the information;

- ii. the information concerns an incomplete proposal or negotiation;
 - iii. the information comprises matters of supposition or is insufficiently definite to warrant disclosure;
 - iv. the information is generated solely for the internal management purposes of Syrah; or
 - v. the information is a trade secret; and
- b) the information is confidential and ASX has not formed the view that the information has ceased to be confidential; and
 - c) a reasonable person would not expect the information to be disclosed.

As soon as any of these elements are no longer satisfied (for example, the information is reported in the media and is therefore no longer confidential), disclosure will generally be required.

5.4 When is Syrah aware of information?

Syrah becomes aware of information if any of its Directors or officers has, or ought reasonably to have, come into possession of the information in the course of the performance of his or her duties as a Director or officer of Syrah.

As a result, Syrah will be aware of information if anyone within Syrah knows the information, and it is of such significance that it ought reasonably to have been brought to a Director's or an officer's attention in the normal course of their duties. In light of this, the procedures outlined in section 4, including 4.6, are critically important to ensure that information is reported, escalated and promptly brought to the attention of the Managing Director or Company Secretary.

5.5 Generally available information

The disclosure obligation does not apply where the information is already "generally available". Information is considered to be generally available if:

- a) it consists of a readily observable matter; or
- b) it has been made known in a manner that would, or would be likely to, bring it to the attention of persons who commonly invest in Syrah Securities, and a reasonable period for it to be disseminated among such persons has elapsed; or
- c) it consists of deductions, conclusions or inferences made or drawn from other information that satisfies one or both of the above criteria.

5.6 False Market

If ASX considers that there is or is likely to be a False Market in Syrah's securities and requests information from Syrah to correct or prevent a False Market, Syrah must give ASX the information needed to correct or prevent the False Market

This obligation arises even if the exceptions outlined above in 5.3 apply.

Unless required to avoid a False Market, the Company's general policy is not to respond to market speculation or rumours. However, when media comment or market speculation:

- a) becomes reasonably specific and is accurate, Syrah will consider whether (and the ASX may form the view that) the information is no longer confidential and, therefore, requires disclosure; or
- b) appears to contain or be based on credible market sensitive information that is inaccurate, and there is evidence that the specific rumour or comment is having, or the ASX forms the view that the rumour or comment is likely to have, an impact on the price of Syrah Securities and Syrah will consider whether (and the ASX may form the view that) a statement should be made to ensure that the market remains properly informed.

6. SPECIFIC PROCEDURES

6.1 Authorised spokespersons

The following persons are authorised (subject to compliance with the requirement to first notify the ASX set out in section 5.1) to make public statements of Material Information on behalf of Syrah:

- a) the Chairperson; and/or
- b) the Managing Director.

The Managing Director may delegate this authority to another person.

No other Personnel may make public statements regarding Material Information or interact with the media on behalf of Syrah without the prior approval of the Chairperson or the Managing Director.

If the media approach any other Personnel for public comment, they should refer the person to the Managing Director (and immediately report the approach to the Managing Director).

6.2 Presentations to investors and analysts, conference presentations and media releases

From time to time, the Company:

- a) Holds open and one-on-one briefing sessions with analysts and investors. Those briefing sessions will usually be held in conjunction with the release of Syrah's financial results or the announcement of a major new initiative or development.
- b) Makes presentations at industry or investor conferences; and
- c) May issue media releases.

The material to be used in such presentations or media releases must be reviewed by the Managing Director and the Company Secretary in advance.

Investor, analyst or conference presentations must be released to the ASX prior to the relevant briefing or presentation, except where such presentations have previously been released to the ASX and do not contain any new market sensitive information.

Media releases relating to Material Information requiring announcement to the ASX must not be made until confirmation of disclosure on the ASX has been received.

6.3 One-on-one meetings and discussions

In the case of one-on-one meetings or discussions with analysts, investors, governments, prospective partners and media representatives (including responses to queries), it is the responsibility of any Personnel involved in the meeting or responding to an enquiry to ensure that Material Information which has not been released to the ASX is not disclosed.

If any Personnel is in doubt concerning a response, the response must not be given until it has been reviewed and approved by the Managing Director, who will liaise with the Company Secretary as required.

If any information is provided during the course of a meeting or in responding to an enquiry that has not been released to the market, the member of Personnel must notify the Managing Director and Company Secretary immediately.

6.4 Media and security price monitoring

The Company's investor relations function will generally be responsible for monitoring:

- a) media (including social media) of Syrah; and
- b) the market price of Syrah Securities.

Where investor relations becomes aware of any unusual or unexpected security price movements or media coverage (including coverage in relation to price sensitive matters that have not yet been disclosed to the market), it will immediately report the activity to the Managing Director and Company Secretary.

6.5 Trading halts

In certain circumstances, Syrah may request the ASX to halt trading in Syrah Securities to prevent trading in a false or uninformed market or to otherwise manage the Company's disclosure obligations (for example, if Material Information is prematurely or inadvertently disclosed and an immediate ASX release cannot be made by Syrah).

The Managing Director (in consultation with the Chairperson, where practicable) will make decisions about trading halts and voluntary suspensions. If the Managing Director is unavailable, then the Chairperson and the Company Secretary, or if both the Chairperson and Managing Director are unavailable, the Chief Financial Officer and Company Secretary in consultation with a member of the Audit & Risk Committee are authorised to make decisions about trading halts.

6.6 Analysts reports and forecasts

Stockbroking analysts frequently prepare reports on listed companies that typically detail their opinion on strategies, performance and financial forecasts. To avoid inadvertent disclosure of information that may affect the Company's value or share price, the Company's comments on analyst reports will be restricted to:

- a) Information the Company has issued publicly; and
- b) Other information that is in the public domain.

Given the level of price sensitivity to earnings projections, the Company will only make comment to correct factual errors in relation to information publicly issued by other parties and Company statements.

7. COMPLIANCE MONITORING AND BREACH CONSEQUENCES

7.1 Monitoring compliance with this policy

Day to day responsibility for the ongoing monitoring of compliance with this policy rests with the Managing Director and the Company Secretary.

7.2 Actions flowing from breaches of this policy

When there is evidence of a breach of this policy, Syrah will conduct an investigation to determine the circumstances and extent of the breach.

7.3 Impact of breaches of this policy

Non-compliance with this policy may result in disciplinary action. The severity of the breach will determine the action to be taken.

Incidents of willful non-compliance with this Policy are considered to be serious and may be grounds for legal action, dismissal or both.

8. INCONSISTENCY WITH CONSTITUTION OR LAW

To the extent there is any inconsistency between:

- a) this Policy and the Constitution, the Constitution will prevail; and
- b) this Policy and any Law, the relevant Law will prevail.
