Project: _____   Part #: _____

Type: _____

Sensors

Gateway SILVAIR Enabled

SGW-102 allows for even further commissioning and advanced scheduling of events and energy monitoring beyond the SILVAIR components standard features. It utilizes a Bluetooth® Low Energy (BLE) mesh network. Commissioning can be set through the SILVAIR desktop site.

Detail Specifications:
• POE Power Over Ethernet
• Operating Temperature: 32-140F°
• Finish: White
• Connectivity: Connect up to 200 devices
• Communication: Bluetooth Mesh + WiFi
• IP Rating: IP20 Dry Location

Applications:
• Commercial & Industrial
• 0-10V Dimmable Fixtures

Product Information:
• Scheduling
  - Scheduling changes in scenes and lighting control scenarios
    (for example occupancy sensing, daylight harvesting)
    for specific times or days.
• Energy and occupancy monitoring
  - Visualizing energy use and occupancy
  - Downloading energy and occupancy details
  - Remote monitoring and control
    - Low latency monitors of the status of devices
    - Low-latency control of devices in the network
• System Diagnostics
  - Monitoring of the status of Bluetooth mesh networks
  - Remote troubleshooting of networking issues

Mounting & Installation:
• Wall or surface mounted

Certifications:
• UL Listed for USA and CA
• DLC NLC Listed ID NSLVR23CNTRL
• Bluetooth
• Approved for CA T24
• 5 Year Limited Warranty
• FCC CFR 47, GCC Part 15, Subpart B:2017
