7. Press **Get started**

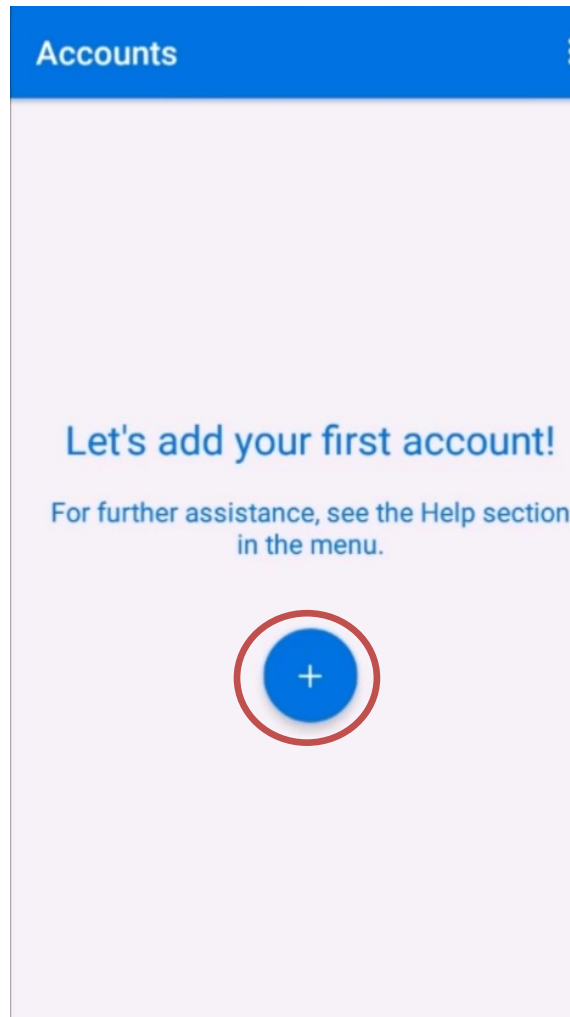

Authenticator App Setup and Reset Using an Android Device

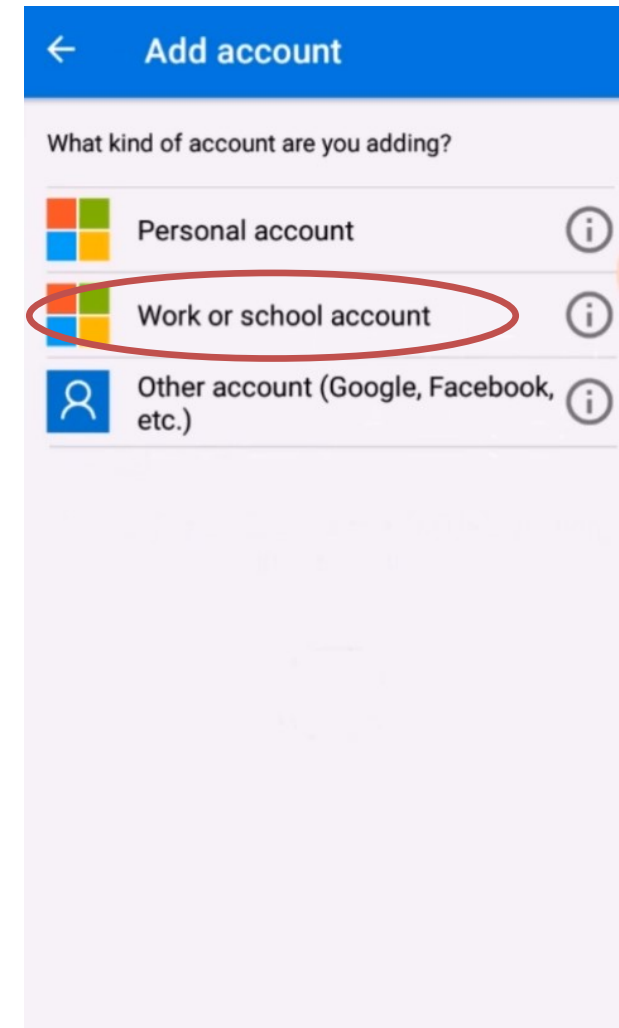

8. Press **OK**

9. Press **Add account plus button**

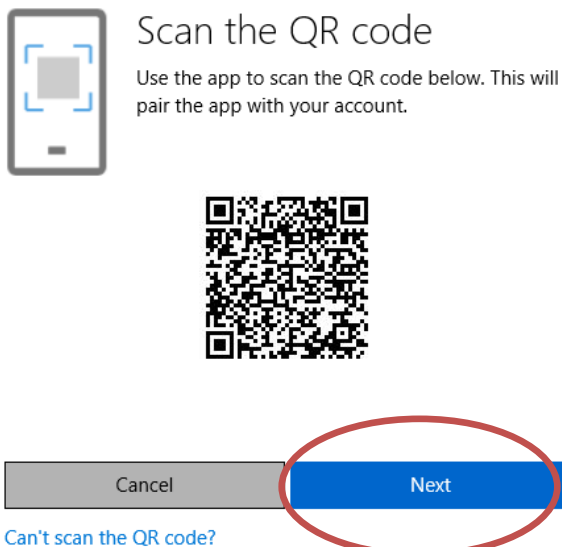

10. Press **Work or school account**

Authenticator App Setup and Reset Using an Android Device

11. Scan the QR code with your iPhone and click **Next**

12. Your next screen should show as below

13. Press **Approve**

14. Back on your computer click the **Finished** button

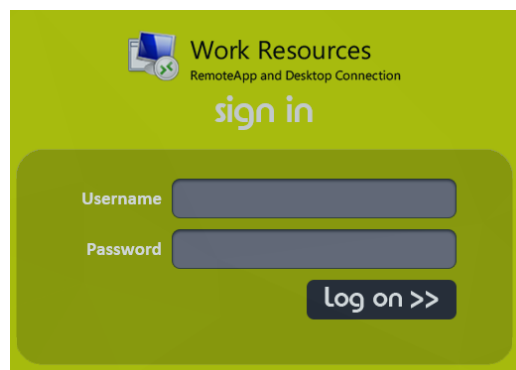

Accessing Remote Desktop From a PC (Once registered for MFA)

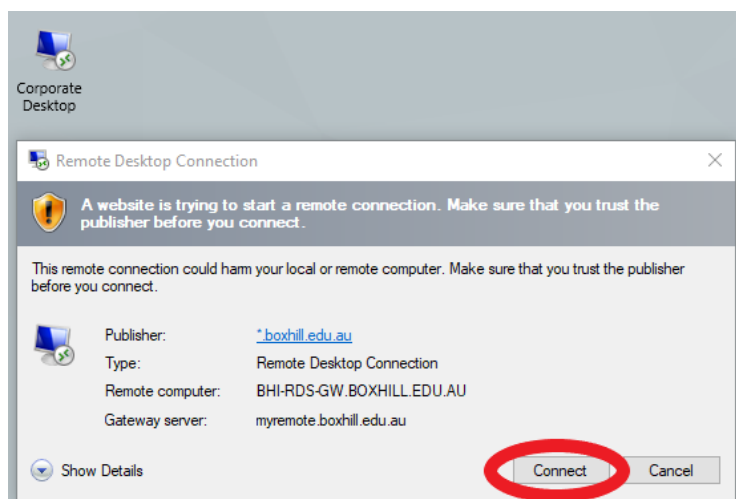

Once you have registered for Microsoft Azure Multifactor authentication (MFA), you can follow the below instructions to connect to the BHIG network via Remote Desktop.

Yet to register for Multifactor authentication? Please refer to the '**Staff Password Resets—Authenticator App**' Guide on the Technology Solutions '**How To**' page.

1. Open Internet Explorer and visit: **myremote.boxhill.edu.au**
2. Log in with your BHI Username and Password:

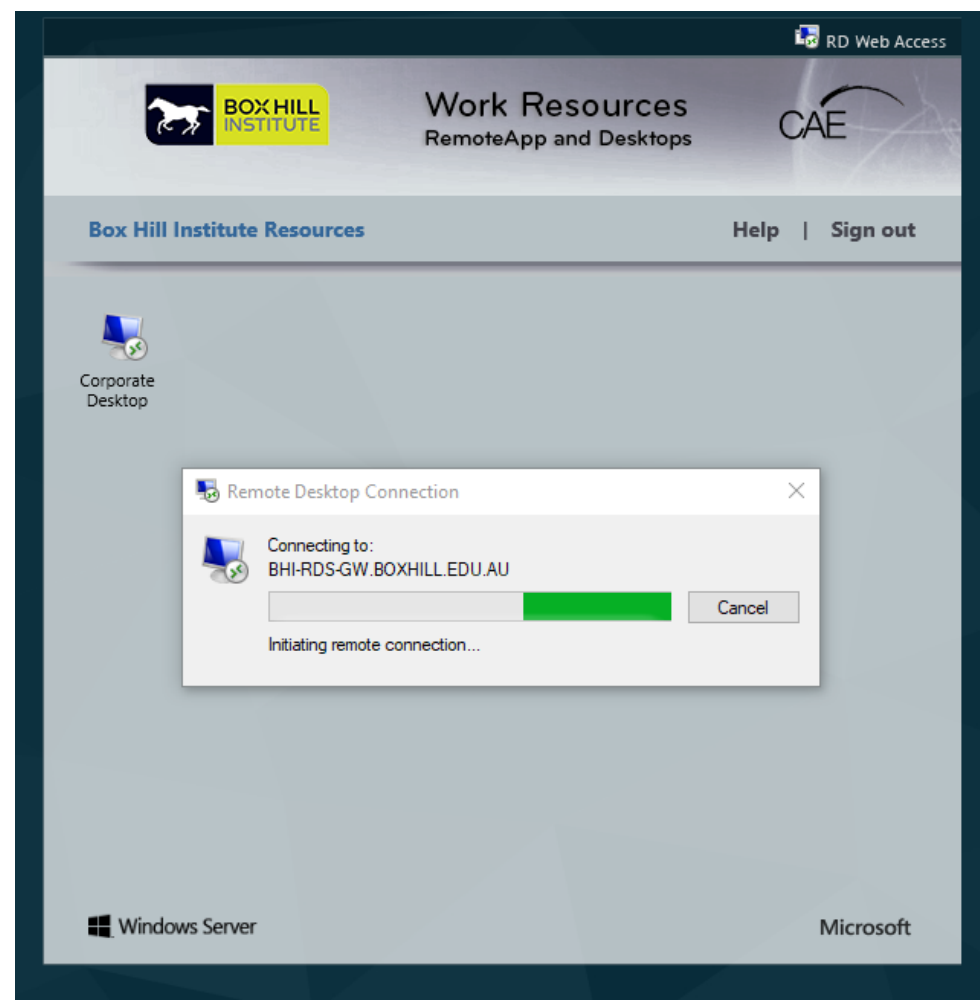

3. Select **Connect**:

4. You will see the following displayed:

You will receive a request to approve login to your mobile device during this time.

Accessing Remote Desktop From a PC (Once Registered for MFA)

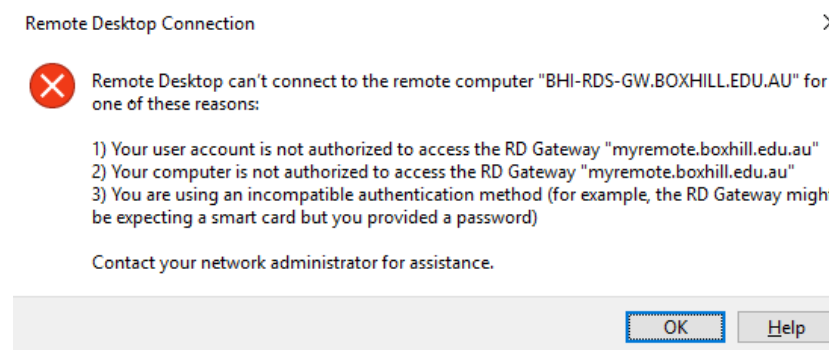

5. You will be prompted to approve log in as seen below on the mobile device you have configured MFA on, select **Approve**:

6. You can now access remote desktop. Please note no documents should be saved outside G drive, Our space and other approved platforms to ensure no data loss.

NOTE: Should you receive the below error you have not correctly configured your account for multi-factor authentication. Please refer to the '**Staff Password Resets—Authenticator App**' guides for **iPhone and Android** devices on the Technology Solutions How To page.
