# Rokas Kasperavicius

Software Developer | MSc in Computer Science

Copenhagen, 2300

kasperavicius.rokas@gmail.com | www.rokaskasperavicius.dev

With extensive experience in Frontend and Backend technologies,
I am ready to take on new challenges, and contribute to innovative projects.

WORK EXPERIENCE

GAN Integrity   Sep. 2024 – Present

Student Software Developer

- GAN Integrity connects all compliance and third-party risk programs in one place.
- I am responsible for developing and maintaining complex compliance software used by a variety of customers around the world.
- **Stack:** Angular; TypeScript; Nx; Node.js; Amazon Web Services (AWS)

Adaptagency   Oct. 2019 – Aug. 2024

Student Frontend Developer

- Adaptagency crafts digital experiences that help brands give people more than they expect, mastering design, development, delivery, and optimization.
- I was responsible for developing features and maintaining websites for clients such as **Sygeforsikringen "danmark"**, **GSV**, **AL Finans**, **Verisure** and other internal projects.
- Collaborated with UX/UI to implement new features.
- Developed responsive and mobile-friendly interfaces.
- **Stack:** React; Typescript; Next.js; Tailwind; Redux
