

LONDON BAHAI BULLETIN

No. 79

August 1944

Dear Friends,

It was delightful to see so many of you at the Centre on Saturday, July 22nd. Those of you who could not come, were in our thoughts.

There are many difficulties nowadays in travelling, but we look forward to the time when the Centre will be filled at every 19 Day Feast and every Sunday afternoon. Speakers on Sundays agree that the meetings are more vital and the discussions more animated when there are a number of Baha'i's in the audience. There is also a greater feeling of unity, and visitors will naturally take away a much better impression of the Cause as an animating force, if they come to a well-filled meeting room.

Although we must each study the teachings for ourselves, the exchange of ideas that results from attending the Sunday meetings is always helpful.

We hope that on Tuesday, August 1st, we shall meet many of you at the Feast of Kamal, and again on Sunday, August 20th, at the Feast of Asma.

With loving greetings from the London Spiritual Assembly.

Extracts from "Abdu'l-Baha in London"  
.....

"If a family lives in Unison, great results are obtained. Widen the circle; when a city lives in intimate accord greater results will follow, and a continent that is fully united will likewise unite all other continents. Then will be the time of the greatest results, for all the inhabitants of the earth belong to one native land."

"Look about you. How many committees have been formed, and living for a little while, have died! Committees and Societies can not create or give life.

People get together and talk, but it is God's Word alone that is powerful in its results. Consider for a moment: you would not trade together if you had no income from it and derived no benefit! Look at the followers of Christ. Their power was due to their ardour and their deeds. Every effort must have its result, else it is not a true effort. You must become the means of lighting the world of humanity. This is the infallible proof and sign. Every progress depends on two things, knowledge and practice. First acquire knowledge, and when conviction is reached, put it into
