

Basingstoke Pharma and Med-tech

Scientific research and development is a sector that is rapidly growing to provide solutions to the problems of tomorrow and many businesses are making Basingstoke their home in order to facilitate this development. Home to 762 companies, scientific research and development is one of Basingstoke's priority sectors, employing almost 2,700 employees.

Industries in this sector range from those involved in drug development and management of clinical trials, to pharmaceutical and medical technology companies, and include businesses of all sizes. The 762 companies that call Basingstoke home collectively combine for a total turnover of £1.38 billion. With Genus leading the way with a turnover of £574 million, this demonstrates that scientific research and development firms can choose Basingstoke as a base to host their multi-million pound operations or springboard their business from it.

762

companies in the sector based in the borough (Q3 2022)

Over 2,600

jobs (2021)

Vyair

Basingstoke and Deane is already home to wide range of players who are taking advantage of everything our region has to offer to future-proof their aspirational developments.

"Basingstoke is a great location for businesses due to its excellent transport links, regional hub status, and strong connectivity.

"It is in close proximity to some great universities and further education colleges, and offers a more affordable cost of living given its proximity to London.

"The Basingstoke council has a strong commitment to business and is always keen to listen to and understand what businesses need to grow and be successful in the local area."
