## The Clockwork (Klockspelet)

Interactive sound and light installation, 2025-2026  
Kungsparken, Göteborg

Interactive sound and light installation in collaboration with Jens Thoms Ivarsson. Reflects on the passage of time, with a light experience starting every ten minutes, and interactive light and sound compositions in between.

## The Tale of Ringön (Sagan om Ringön)

Interactive installation, 2025

Koami Art Festival, Ö-Festen Ringön, GIBCA Extended Ringön

Interactive installation about a sailor's soul sealed in a mast. Visitors interact via phone, playing tones while the sailor responds with poetry and stories. Explores co-creation with AI.

## Strings

Interactive audiovisual work, 2025-2026

Artblocks.io

Interactive audiovisual work exploring energy, vibrations, and frequencies. Lines represent playable strings where the sound is affected by length, tuning, and playing style. Each artwork is a unique instrument.

# Mycelia

Generative artwork, 2023

Artblocks.io

Generative animated artwork mimicking mycelium growth in nature. Each piece has its own token making each artwork unique, presented digitally and animated on screen.

## The Seventh Wave

Sound work, 2020, [listen to the attached file.](#)

Seven chords in sequence that slowly move from disharmony to harmony. A sound experiment in how harmonies can affect our emotions.

## Syntetiska körer

Sound work, 2019, [listen to the attached file.](#)

A female and male synthetic choir singing harmonies over a simple piano accompaniment. The music has been used as background music for a video that was partly animated and filmed.

## En papperskiva

Sound work, 2023, [listen to the attached file.](#)

In a collaboration with the Swedish company PaperShell, an experiment was made to press music in paper, instead of vinyl. I created the music for the project.

## Mycelia

Sound work, 2023, [listen to the attached file.](#)

Music that was used when the art project Mycelia was presented.
