### MANGIA'S

Located in the center of the Mediterranean, with a predominantly mountainous territory, Sardinia is an island with an emerald green sea and white and sandy beaches. A land of ancient traditions, where nature reigns wild and uncontaminated. In vast areas of nature, deer and wild horses can be encountered. The urban centers, on the other hand, preserve the memory of the nuragic civilization and its nuraghi, the tombs of the giants, the sacred wells or the houses of the fairies. A paradise for those who love the sea, but also nightlife, water sports, trekking and climbing.
