

A 20x10 grid for a crackle liftplan. The grid contains numbers 1, 2, 3, and 4 in a repeating pattern. The first two columns are black, the next two are light blue, the next two are light green, and the last two are light red. A vertical black bar is on the right side of the grid.

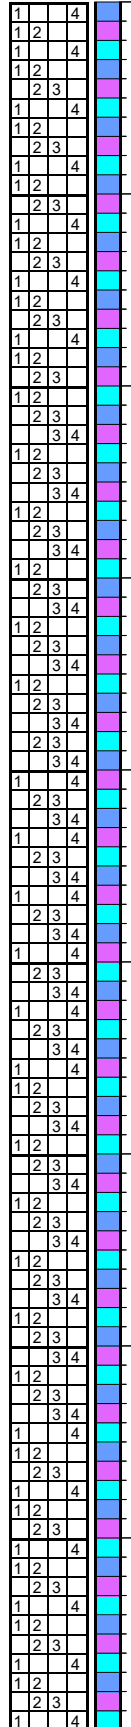

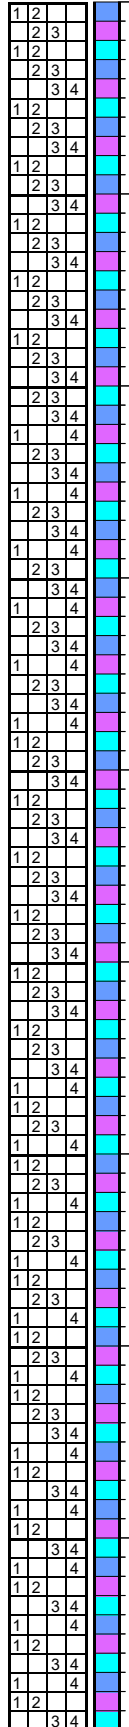

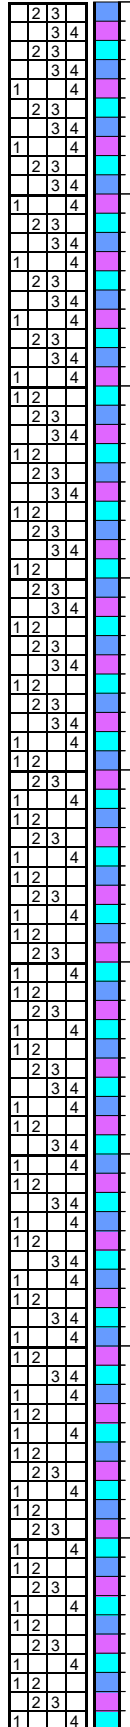

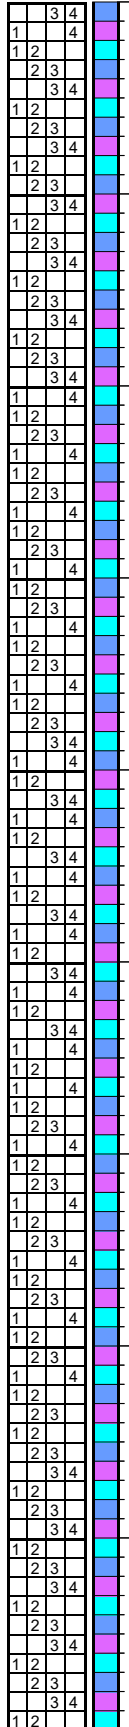

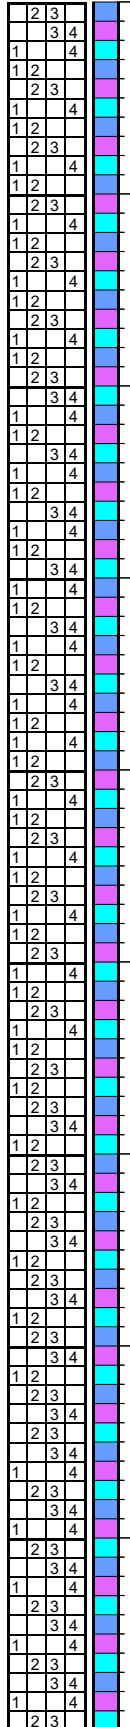

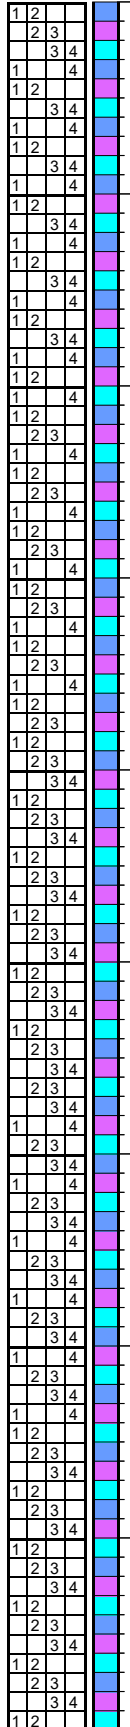

A 20x10 grid for a crackle liftplan, identical to the first grid, featuring a repeating 4-number pattern in a 2x2 color scheme (black, light blue, light green, light red) and a vertical black bar on the right.

A 20x10 grid for a crackle liftplan, identical to the first grid, featuring a repeating 4-number pattern in a 2x2 color scheme (black, light blue, light green, light red) and a vertical black bar on the right.

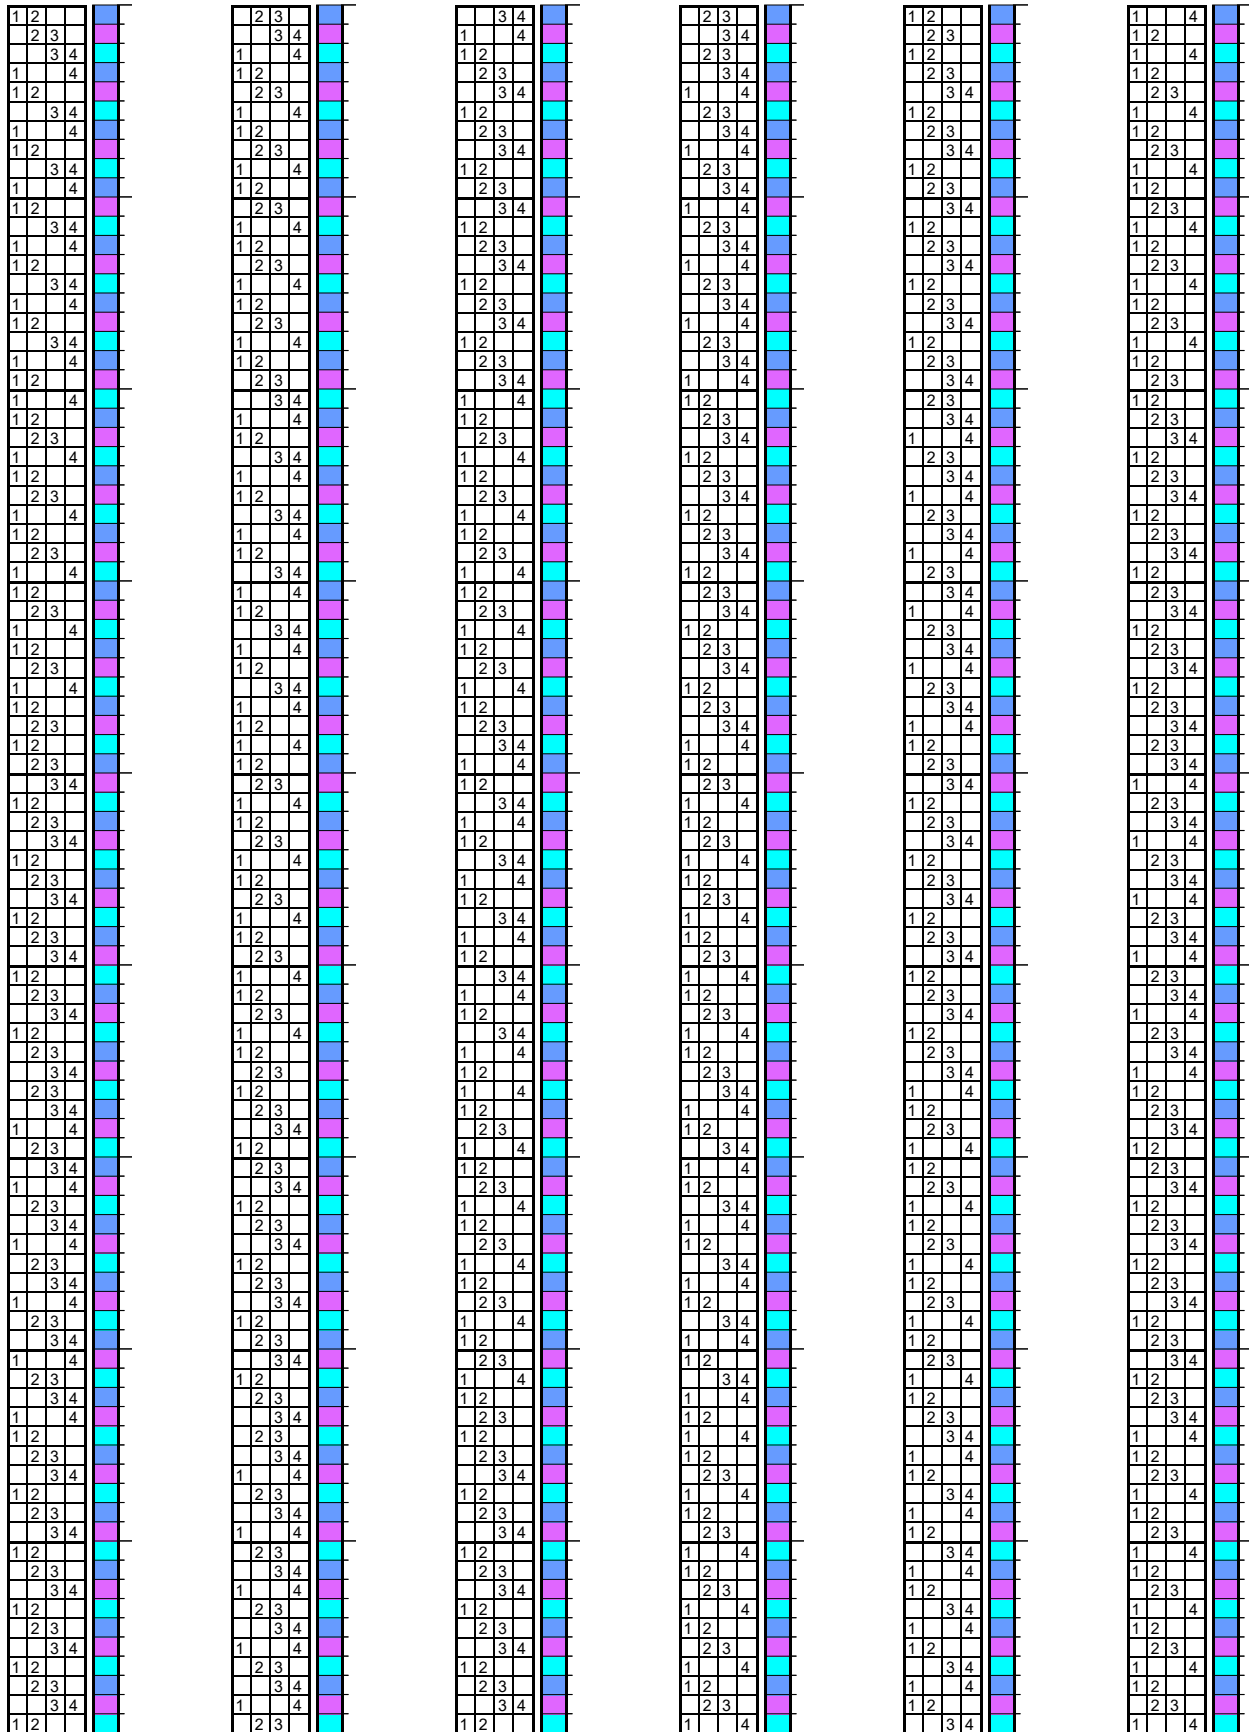

A 20x10 grid for a crackle liftplan, identical to the first grid, featuring a repeating 4-number pattern in a 2x2 color scheme (black, light blue, light green, light red) and a vertical black bar on the right.

A 20x10 grid for a crackle liftplan, identical to the first grid, featuring a repeating 4-number pattern in a 2x2 color scheme (black, light blue, light green, light red) and a vertical black bar on the right.

A 20x10 grid for a crackle liftplan, identical to the first grid, featuring a repeating 4-number pattern in a 2x2 color scheme (black, light blue, light green, light red) and a vertical black bar on the right.
