

Paul Vitenas, Jr., MD, FACS

Vitenas Cosmetic Surgery

Unlike many top plastic surgeons, Dr. Vitenas has been able to build a practice which provides a superior level of quality in surgical results, service and care.

Delivering natural results in cosmetic plastic surgery requires a combination of rigorous training, years of experience, and an artistic eye. With the focus of medical school being so concentrated in math and science it is not an environment that draws many artistically inclined candidates and graduates even less.

In his 22 years of private practice Dr. Vitenas has proven his ability to deliver natural results to thousands of happy patients. The quality of service and care are of equal importance to him and it shows from the moment you call the office. His vision is for each patient to receive the same experience within his office. An experience which begins the moment you first make contact with the office and that lasts a lifetime. The patient reviews online say it all, Dr. Vitenas has achieved his vision.

EDUCATION: Tulane University, BS; Tulane University School of Medicine, MD; Tulane Medical Center, Residency in general and plastic surgery; University of Miami and Paris, France Fellowship.

AWARDS: Patients Choice Award 2010, 2011; Distinguished member National Council of Leaders in Breast Aesthetics; Top Doctor 2011, 2012 by RealSelf.com; Most Compassionate Doctor Award, 2010 and 2011 by Vitals.com.
