

# REED DIFFUSERS

## Benefits of Reed Diffusers

- No Risk of Fire
- No Messy Wax Deposits
- No External Power is Required

### What are reed diffusers and how do they work?

Reed diffusers are the hottest trend right now in home fragancing. They are simple and safe to use; reeds are inserted into a glass bottle of scented diffuser oil, the reeds soak up the scent and emit a pleasant aroma around your home.

### How long do reed diffusers last?

There are many factors that contribute to how long the oils last, namely temperature and humidity. However, we have found that our 50ml diffuser oil should last for approximately 2-3 months.

### My reed diffuser doesn't smell as strongly as it used to. What can I do?

Overtime the reeds become completely saturated and can become clogged with dust. If you still have oil in the bottle, simply flip the reeds to help give the diffusion process a little boost. If this doesn't help, consider replacing your reeds.

### Are Reed Diffusers environmentally friendly?

Our reed diffusers are very environmentally friendly. Unlike candles, they emanate no soot or film onto furniture, walls, and ceilings. Our ingredients are alcohol-free and DPG-free.

### Why can't I just re-use my sticks over and over again?

Once the reed sticks are totally saturated, the cells in the reeds eventually become clogged and lose their ability to pull the scent up from the reeds to the room.

### U1410

2" x 2" x 8 5/8" (Box)  
 1 3/8" x 1 3/8" (Label)  
 1 7/8" x 1 7/8" x 2 3/4" (Bottle)
