

# ESSENTIAL OILS

## 100% Pure Essential Oils : Single Oils

**Undiluted**  
**No Additives**  
**No Fillers or Bases**  
**No Synthetics**

### What are essential oils?

Essential oils are concentrated plant extracts that retain the natural scent and flavor, or "essence." Essential oils are obtained through distillation or mechanical methods like cold pressing.

### How do essential oils work?

Essential oils are most commonly used in the practice of aromatherapy, in which they are inhaled or diluted and applied to the skin. They may stimulate your sense of smell or have medicinal effects when absorbed.

### Are they safe to use?

Essential oils are generally considered safe to inhale or apply to the skin if they've been combined with a base oil. They should not be eaten. If you have a serious health condition or are taking medication, you should discuss their use with your healthcare practitioner.

## Specifications

The best way to incorporate aromatherapy into your daily self care routine! Simply add a few drops of essential oil to an aromatherapy diffuser or dilute the liquid with a high-quality carrier oil and apply to the skin. Allow yourself to connect with the benefits of nature.
