

Shailee Varsha Imrith

Senior Data Scientist, London

Shailee is a Senior Data Scientist based in RBB's London office. She holds a Ph.D. in Theoretical Physics from QMUL with publications in physics journals. She completed a Data Science fellowship at Faculty AI (London) before joining RBB in 2019.

Shailee has worked on a wide range of competition cases before the European Commission, as well as other national competition authorities like the UK, France, Sweden, and Australia.

Her expertise lies in data-intensive tasks, and she is highly proficient in data science, machine learning, Python, SQL, and other programming languages.

Notably, her expertise in cloud computing and cloud platforms has been a genuine asset on recent digital market cases that involved very large amounts of data.

In addition to building internal tools to increase efficiency at RBB and applying machine learning techniques in Econometrics, she has worked on economic analyses for cases including mergers, cartels, follow-on damages estimation and market studies.

Shailee is fluent in English and French.

Recent Case Experience

Amazon
Digital Markets Act, EU

Alphabet (Google)
