

# Pagero solution for Belgium

Our solution complies with legislative requirements in Belgium regarding electronic documents, formats, content, and response messages. We are also equipped to provide Legal Archiving in Belgium, alongside value-added services to achieve maximum efficiency.

## Why choose us as your Service Provider?

- Pagero is a Peppol Accredited Service Provider (Access Point).
- In Belgium, Pagero offers businesses the possibility to exchange B2G e-invoices with the Mercurius platform, as well as B2B e-invoices with the Hermes platform.
- We support Invoice Response Message (IRM) on the business side and Message Level Response (MLR) for technical matters associated with exchanges via the Peppol Network in Belgium.
- Besides Peppol capabilities, Pagero offers support for Interoperability, EDI and e-mail as invoice exchange mechanisms.
- We seamlessly integrate with any ERP or Workflow system and have a network of partners specialised in Pagero and ERP systems, e.g. SAP, Oracle, Microsoft, IFS and more.
- Besides Belgium, our solution is compliant in 70+ markets. Leading global companies e.g. HPE, Johnson & Johnson, ABB and Microsoft use Pagero's solution.
