

Streamline e-invoice and document exchange, effortlessly meeting worldwide regulatory requirements

# E-invoice compliance with AP Automation for Workday®

Once you have received invoices into your Workday system, Pagero can help you achieve compliance with local e-invoicing and CTC regulations in over 70 countries through the power of the Pagero Network.

With Pagero's platform, you'll have increased visibility and receive real-time notifications about the status of your invoices, all through the Workday interface.

**Compliant**

Meet local e-invoicing and tax regulations in all the countries where you operate

**Global**

Reach all your customers and suppliers through the Workday platform

**Seamless**

Integrate with the Workday environment without adding new interfaces

**Efficient**

Increase visibility and efficiency by migrating to a 100% digital process

# Streamline your AP operations in Workday®

Does your team struggle with receiving invoices in too many formats and protocols? Without effective automation tools, AP departments are doomed to time-consuming, repetitive manual data entry and constant re-processing to resolve errors and track down missing information.

Through a Workday-built connector for Pagero, the exchange of data and e-documents with your suppliers is seamless, effective, and secure so your AP team can focus on the most value-added tasks and processes.

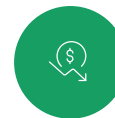

Leveraging Workday's business process framework and robust object model, your suppliers e-documents flow seamlessly through Workday's centralized AP workbench, allowing your AP team to scale.

**Reduce manual data entry**  
Eliminate the need to manually key invoice data into Workday

**Increase efficiency**  
Accelerate invoice handling and payment processing

**Reduce costs**  
Processing e-invoices cost less and eliminates late payment fees

**Improve data accuracy**  
Fewer invoice errors through data verification and validation
