Important: New process for sending your invoices to Saab Group

Dear Valued Supplier,

As part of Saab Group's continued commitment to enhancing operational efficiency and ensuring timely invoice payments, we are advancing the next phase of our digitalisation strategy. Effective **20th of October 2026**, Saab Group will phase out the processing of paper and emailed PDF invoices.

To facilitate this transition, Saab Group has partnered with Thomson Reuters to introduce electronic invoicing via ONESOURCE Pagero, a leading global business network. This initiative will apply to all incoming invoices and is designed to improve payment timeliness, enhance invoice traceability, and foster stronger, more collaborative supplier relationships.

How can you connect with us electronically?

1. **If you are using another service provider**, contact them and ask them to establish the connection with ONESOURCE Pagero.
2. **If you are registered on Peppol**, use the below PEPPOL ID to activate the connection.
3. **If you already have a ONESOURCE Pagero account**, please login and add Saab Group to your account using the customer directory. You can check here on how to do that.
4. **If you don't have a solution yet**, the simplest way to begin sending e-invoices is to use the ONESOURCE Pagero Free Portal. Register here to unlock the full benefits of joining a trusted global business network.
5. **If you exchange a high number of invoices,** you can send them directly through your ERP system. A range of semi- and fully-automated solutions are available to help streamline and optimise your invoicing processes. To explore these options, please complete the contact form.

If you have any problems registering a free portal account or any questions on how to use the portal when creating an invoice, please submit a ticket to Thomson Reuters support. Please visit the Onboarding page for more information and guides.

We require our suppliers to adopt e-invoicing as soon as possible, as after 30/11-2026 all invoices received on paper and PDF will be rejected. All new tenders and contracts will have trading electronically as a pre-requisite to providing goods and services to Saab Group.

In order to support your transition to e-invoicing, we have asked Thomson Reuters to reach out to you within the next 10 working days. Thomson Reuters will be handling all aspects of this project and will keep us updated on your progress.

Thank you for your support with this mutually beneficial initiative. We look forward to receiving your invoices electronically.
