

Information in english

 Smukfest (known as "Denmark's Most Beautiful Festival") takes place in the Dyrehaven woods just outside the town of Skanderborg. These woods are officially designated as protected, to help make sure this special area thrives for generations to come.

The festival organisers borrow this venue from the Municipality of Skanderborg. Each year, the Smukfest organisers have to re-apply for permission to hold this unique festival in this unique location. That is why both the Municipality and the festival organisers consider it important that the natural beauty of the area is maintained for the future. And that is why we have prepared this leaflet. In order to look after this woodland area, it is important to avoid all unnecessary traffic. This is why special driving and parking permits are required. These must be filled out and attached inside the front window of your vehicle.

Get to the right place – first time! When in doubt, please ask one of our guards at gate A, B, C, D or E (see map page 7).

General information for vendors, bands and helpers

Smukfest features four different stages and three main storage areas (one for food, one for spirits and one for non-food items). There are also two main eating areas. And deliveries need to be made to all these places. To make this easier, there are six access roads through the woods, marked with the letters A to F. All these access roads also have a name. These names are marked on the enclosed map and on signs placed in the woods.

Please help us by doing the following – before you arrive:

- Find exactly where you need to go, and locate it on the enclosed map.
- Make sure you know who your contact person is, and that you have his/her mobile phone number.
- Make sure you know which access road you will need to use to get to your destination.

REMEMBER! Normal Highway Code rules apply everywhere in the festival area. This means, for example:

- You must always use the safety belt provided in any vehicle you use.
- You are only allowed to transport the number of passengers for whom there are proper seats in the vehicle.
- This means you are not allowed to drive with people in the back of vans or on the cargo area of trucks or other vehicles.
- You must not drive if your blood alcohol content is higher than 0.05%.

- The way you drive must be appropriate to the conditions around you. In particular, this means you must take due care when driving near anyone on foot – even if they are on the road.
- Driving two-wheeled vehicles or ATVs/quad bikes requires use of a helmet.
- You must not take passengers with you aboard Smukfest "scooters" and other two-wheeled runabouts.

While you're in the woods, take special care

- Do not leave the roads for any reason – it damages the woodland environment.
- Park your vehicle in marked parking spots only.
- Keep a distance of at least 5 metres between your vehicle and any trees and their roots.
- Do not drive any faster than 20 km/hour.
- Be extra careful when reversing your vehicle.
- Report any damage to the wooded areas by calling +45 21 71 93 56.
- Report any damage to equipment or facilities by calling +45 21 71 93 71.

Thank you for being considerate.
