

EDGE REMINDERS

| automate your communications

Edge Reminders is an easy-to-use, efficient system for automating your patient reminders. Reminders can be sent via multiple message options including phone, text, and email. Customize reminders with your specific message using a human voice, so patients hear exactly what you want.

CONVENIENT

Use Edge Reminders to send out monthly birthday messages, recall appointment reminders, or payment reminders to ensure your business is staying connected with your patients.

AUTOMATED

Send out messages in batches or automate the entire process. Scheduled reminders allows you to set regular messages to go out automatically. Patient responses even sync into your schedule.

PERSONALIZED NEWSLETTERS

Add your unique touch with Edge Broadcast, your own personalized newsletter platform, which comes included with Edge Reminders.

COST EFFECTIVE

With no minimum monthly charges and no long term commitments, Edge Reminders is a money-saving way to stay in contact with your patients.
