## PROFILE

Full-stack developer with over 2 years of experience, currently focused more on the front-end side. Proactive and detail-oriented, I enjoy challenges and finding clever solutions. I am seeking a new opportunity to elevate my career in an IT-focused environment.

## SKILLS

**Programming languages** (*JavaScript | TypeScript | PHP*)  
**Frameworks** (*NextJs | React | Nodejs*)  
**Databases** (*MySQL | MongoDB*)  
**Styling** (*TailwindCSS | LESS*)  
**CMS** (*Strapi | DatoCMS | WordPress*)

## PROFESSIONAL EXPERIENCE

### Comguru agency

#### Full-stack Software Engineer

Oct 2021 – Present  
Sousse, Tunisia

- Lead a large project from architectural planning to completion (Cinema Management System).
- Created mini-games with an average of 4k entries per event.
- Maintained direct contact with clients, providing ongoing assistance.
- Built and maintained multiple WordPress sites.

#### Full-stack Web Developer

Feb 2021 – Sep 2021  
Sousse, Tunisia

Designed and built a platform to improve the agency's workflow, including project management, scheduling, and a feature to improve client feedback.  
Technical stack: React | Redux | Nodejs | GraphQL | MongoDB.  
Case study: [fedi.kouzana.com/projects/becom\\_comguru](https://fedi.kouzana.com/projects/becom_comguru) 📄
