Oxygen

OUR VALUES

03

**wherever
energy
flows**

HISTORY

Founded in 1973 by Mr. Roberto Brevi, our Group is still family owned and operated. Over the past five decades we have become a niche valve maker with an ambitious growth plan thru innovation via internal R&D and acquisitions of highly specialized manufacturers.

TEAM

10

Our family counts 400+ members, from more than 24 countries. We pursue a policy of internal growth with focus on training and personal development starting with apprenticeship in cooperation with local education institutions where we operate. Average tenure is 24 years in our plants in Italy.

VALUES

We are **committed** to our people, communities and customers. Relentless strive toward continuous **improvement** of our products, our services and our capabilities. Sustained **investments** in new technologies, processes and *state of the art* equipment.

RENEWABLES

We provide valves for Renewable Energy sources for the following applications:

- Solar Thermal Power plants
- Waste-to-Energy
- Green Hydrogen cycle
- Bellows valves for Molten Salt
- Alloy C276 forged valves for Biofuels units
- Special Ball valves design for CO₂

WATER & HYDROPOWER

We offer a wide range of solutions for water and hydropower control, sustained by an all-Italian production process and solid expertise.

- Air valves
- Flow control
- Fixed cone valves
- Submerged vertical sleeve
- Butterfly valves
- Non-return axial valves
- Penstock valves
- Ring-follower valves
- Butterfly valves
- Ball valves

AIR SEPARATION

HYDROGEN & OXIGEN

**Cryogenic service valves for
Air separation with special expertise
in liquid oxygen and hydrogen:**

- Liquid Hydrogen
- Liquid Oxygen
- Liquid Helium
- HP Hydrogen Gas to 20.000 PSI
- High Purity Gases for Semiconductor manufacturing
- LH2/LHE Bellows Seal Valves
- LH2/LHE Actuated and Control Valves
- LOX Gate, Globe, Check valves
- LOX Ball valves
- Triple Offset Butterfly
- DuEX Double Eccentric Ball

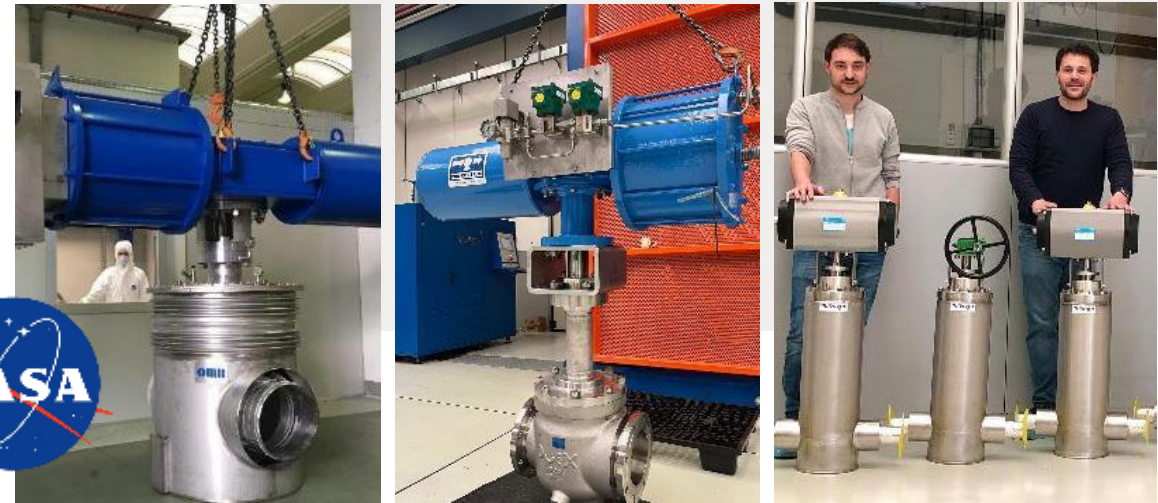

AEROSPACE

Focus on LH2 & LOX applications
in aerospace sector

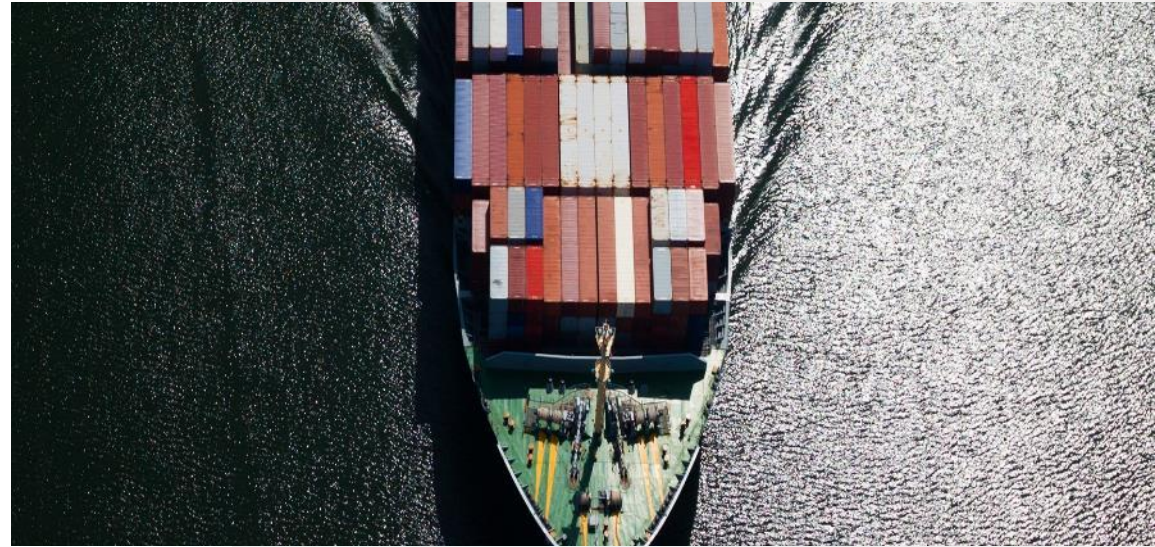

Launch pad fuelling systems

Rocket testing

**Engineered products for marine
with classification by major bodies.**

- Valves for LNG propulsion
- DOD qualified
- Valves for shipyards
- API602 Forged
- Ball valves
- Triple Offset Butterfly
- DuEX Double Eccentric Ball
- Aluminium Bronze
- Titanium Duplex and SuperDuplex

Cryogenic service valves for LNG

Expertly designed and field validated:

- API602 Forged
- API608 Ball
- API600 Gate
- API623 Globe
- API594 Check
- API609 Triple Offset Butterfly
- DuEX Double Eccentric Ball

UPSTREAM OIL & GAS

20

In the Oil & Gas upstream sector we serve a wide variety of business segments:

- Subsea applications
- Platform and FPSO specific products
- Onshore production fields

High pressure valves, engineered for severe services:

- API6A Ball
- API6A Check
- API6A Gate
- API6A Globe
- API6A Modular
- API6D Ball
- API6D Gates
- API6D Check
- API6D Modular

PIPELINES & TERMINAL

21

Reliable product for transmission line for liquids and gas.

- In-house cladding facilities.
- Italian Casting and Forgings
- API6D Ball
- API6D Pipeline Gates
 - Slab
 - Double Expanding
 - Compact
- API6D Check
 - Swing
 - Tilting Disc
 - Axial
- API 609 Triple Offset Butterfly

REFINING & PETROCHEMICAL

22

Leading line of forged valves used in major refineries and petrochemical complexes worldwide.

From steam service to Alkylation, Chlorine and Catalytic Reformer service

- API602 Forged
- API608 Ball
- API600 Gate
- API623 Globe
- API594 Check
 - Swing
 - Dual Plate
- API609 Butterfly
 - Rubber Lined
 - Triple Offset
- DuEX Double Eccentric Ball

Vogt valves: since 1890 highly reliable product for steam generation:

- API602 Forged
- Metal Seated Ball
- Pressure Seal Gate, Globe and Check
- Triple Offset Butterfly
- DuEX Double Eccentric Ball

Complete range of Leslie Control valves and Desuperheaters
