

MIKE ALBERT

FLEET MAINTENANCE MANAGEMENT

Between the technological advancement of vehicles and the demand for qualified mechanics, the cost of vehicle maintenance is on the rise. Manage your vehicle's maintenance with a program designed to gain control of costs and ensure the quality of service.

Mike Albert's maintenance management service allows you to:

Control maintenance costs.

Eliminate costly repairs caused by neglected preventive maintenance. Reduce costs with trusted pricing through our preapproved National Account Network.

Increase productivity.

Drivers are given advance notice of preventive maintenance coming due, so they can schedule the time best for them. Our dedicated maintenance team works directly with the shops, so your driver's experience is hassle-free.

Gain peace of mind.

ASE-certified technicians monitor each repair, preventing overcharging and unnecessary work. Includes access to 24/7 Emergency Roadside Assistance.

Scalable for any size fleet.

Ensure your vehicles receive all of the maintenance they need—and none of the work they don't. Mike Albert provides solutions for a streamlined maintenance experience including:

- Payment solutions that ensure your drivers never pay out of pocket.
- Breakdown of every item invoiced for transparency into vehicle health.
- Overdrive, our mobile app, makes it easy to stay up-to-date on scheduled maintenance.
- Access to your fleet's maintenance data allows you to identify the cost to maintain each unit, so you can proactively manage your fleet.

The ASE-certified mechanics vet the labor and parts cost from the shop before they even send it to us for approval. We feel confident that they make sure we're not being overcharged.
