

OVERDRIVE™ FLEET ADMIN PORTAL

With our Overdrive™ fleet admin portal, all your fleet info is in one place, in an easily accessible, and orderly, digital format, saving you time and hassle. Our portal helps you streamline the management of your vehicles and your drivers for increased productivity and compliance.

Leading-edge fleet management platform.

As a client of Mike Albert Fleet Solutions, you're invited to use our proprietary Overdrive portal, free of charge, to make payments online and for 24/7 access to data about your vehicles, drivers, registration details, vehicle orders, and more. Our portal offers a quick, clear overview of your current fleet data in a cleanly designed dashboard, allowing easy navigation for more details in each category.

The more frequently our Overdrive portal and app are used, the less time will be spent asking questions and searching for fleet records. Plus, you'll be able to say goodbye to keeping track of paper documents.

Once you're our client, to start using our Overdrive portal, simply give us your email address and we'll arrange access for you.

Overdrive portal makes it quick and easy to:

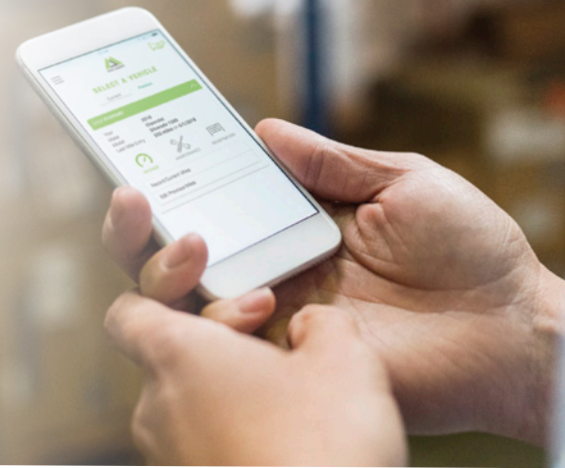

- Search for and find specific details about any vehicle in your fleet.
- Assign a driver to a vehicle or change a vehicle assignment from one driver to another.
- Add and maintain information about all your drivers.
- Make online payments.
- Place orders for new vehicles.
- See upcoming registration expirations and manage title and license tasks.
- Run various reports for documentation and compliance purposes.
- Access our nationwide network of trusted service providers we've vetted for quality and fair pricing.
- Access all your vehicles' maintenance histories, receive alerts when services and recalls are due, and more when enrolled in our maintenance management service.
- See real-time mechanical problems, as well as any unauthorized vehicle usage or unsafe driving issues, with the addition of the Albert IQ™ vehicle and driver monitoring platform.

MIKE ALBERT

OVERDRIVE™ DRIVER APP

Our Overdrive™ mobile app enables your drivers to quickly retrieve the information they need about previous, current, and on-order vehicles, from anywhere, anytime. With the data they need at their fingertips, it's easier for them to be more productive.

Effortless self-service tool.

When you're a client of Mike Albert Fleet Solutions, your drivers receive free access to our Overdrive mobile app. Our convenient app—with its streamlined, intuitive interface—simplifies the management of mileage reporting, registration actions, and maintenance requirements, so your drivers can complete these tasks faster, limit downtime, and get back on the job.

The convenience of our app also saves you and your fleet administrators time by reducing the need for your drivers to call with questions and requests for information about their vehicle. Plus, with vehicle documents saved digitally on Overdrive, you and your drivers don't have to worry about tracking down paper records.

Easy mileage tracking.

Drivers can digitally record odometer readings and identify mileage as personal or business use. Entries are logged to our system for simplified tax filing.

Compliance notifications.

Drivers are sent alerts when mileage entry and registration tasks are due. When enrolled in our maintenance management service, drivers also receive notifications for upcoming and past due preventive maintenance requirements. And with the addition of our Albert IQ™ vehicle and driver monitoring platform, drivers are alerted when their vehicles have mechanical issues and/or recalls that need to be addressed.

Qualified service center locator.*

Our locator lists a nationwide network of trusted service providers we've vetted for quality and fair pricing. The locator includes filters that let drivers narrow their search to fit specific location, maintenance, and repair needs.*Available for vehicles on Mike Albert's Maintenance Management service.
