

CONGRATULATIONS
DR. MICHELLE CABRET
FOR BEING NAMED ONE OF THE

TOP COSMETIC SURGEONS IN AUSTIN

SCAN TO VISIT WEBSITE

Austin Cosmetic Surgery is a leading cosmetic surgery practice that specializes in surgical and non surgical procedures, as well as health and wellness services for both men and women. Led by the stunning Michelle Cabret, M.D, DDS, Austin Cosmetic Surgery provides services in 5 major areas: body, face, and breasts surgically, nonsurgical aesthetics for the face & body, and wellness to include hormone optimization and medically assisted weight loss. This includes breast augmentation, tummy tuck, mommy makeover, jaw augmentation and more. Dr Cabret is a premier cosmetic and reconstructive surgeon in both Scottsdale, Arizona and Austin, Texas.

Born on an Air Force Base in Puerto Rico, Dr. Cabret spent much of her childhood (9 months a year) in foreign countries, including Japan, Philippines, and the United Kingdom due to her parents' careers working for the Department of Defense (DOD). Additionally, her parents felt traveling provided an education in and of itself and she had the fortune of traveling the world- Europe, Asia, and Russia. The highlight of her young life was always coming home to Central Texas and visiting family in Southern California.

Educationally, starting around age 15, Dr. Cabret thought she wanted to be a craniofacial surgeon so tracked the fastest path and found that if she went to dental school first and then medical school she could get to the residency portion much sooner. Dr. Cabret studied with the Young Scholars program at the University of California, Santa Barbara while still technically a high school student. She did her undergrad at UC San Diego and UCLA for Dental School. The highly intelligent Michelle Cabret became the first female ever to be granted an academic scholarship and accepted into the prestigious double degree program at the University of Texas, Southwestern School of Medicine. She went on to complete her residency at UT Southwestern in Dallas as well.

In 2002, Dr. Cabret started her private practice in Scottsdale followed by the opening of Austin Cosmetic Surgery in Austin in 2018 and opening The Spa at Rough Hollow, a med-spa at the exclusive marina on the gorgeous Lake Travis in Austin, TX over the holidays.

Dr Cabret has performed hundreds of thousands of procedures over the course of 21 years; 90-95% cosmetic and 5-10% reconstructive at this point. Breast lifts seem to be the most common surgery performed in both locations.

MYAUSTIN Magazine applauds Michelle Cabret M.D DDS for her nominations as a Top Cosmetic Surgeon in Austin Texas. She is extremely educated, a beautiful person inside and out, and even more, a highly regarded cosmetic surgeon with a diverse and unique background.
