

Amendment to EGP Rulebook Annex C – specification on calculating the majorities

To ensure clarity and transparency regarding the calculation of majorities of votes cast, the EGP Committee proposes to add a specification in the Annex C to the EGP Rulebook before the (first) table of required majorities:

“Votes cast are defined as votes in favour or against.”

This means abstentions aren’t counted for establishing the majority of votes cast.

VOTE:

The EGP Congress adopts the amendment to the EGP Rulebook Annex C as presented.
