Rules and Procedures within the European Green Party

Adopted at the 36th EGP Council in Copenhagen, 2-4 Dec 2022

With amended Annex D, 37th Extraordinary EGP Congress, Vienna, 2-3 June 2023

With amended articles 14.4-6 and Annex C, 38th Online EGP Congress, 2 December 2023

Introduction

The European Green Party Rule Book is complementary to the European Green Party Statutes. It guides the internal organisation and work of the European Green Party, ensuring that we embody the same principles in our work, as the ones we advocate for through our policies.

The Rule Book provides general principles and where necessary details that regulate our structures and processes in democratic, transparent, inclusive, progressive, and responsible manner. The European Green Party, its Membership and Bodies are to follow and apply these principles in their political activities, mutual relations, and relations with external partners. The Rule Book safeguards the European Green Party accountability to its Members, while ensuring its competence to evaluate Members adherence to the Rule Book.

The Rule Book is under the competence of the annual Congress, and it has to be in coherence with the relevant legal regulations in Belgium and in the European law. Information that is subject to change due to changes in membership, representation, budget or Congress decisions on activities is represented in Annexes that are updated annually.

- 12.3 Policy papers are built within a dedicated discussion group, convened by the Committee, that can include representatives of Members, FYEG, GGEP, GEF and if needed external experts.
- 12.4 The mandated discussion group produces a draft of the policy paper, which will be discussed and later adopted at the consecutive Congress.

12.5 The final draft of the policy paper is to be voted following the procedure for Congress resolutions.

13. European election campaign

13.1 The European Green Party is responsible for the preparation and coordination of the Common European Election Campaign in close cooperation with the GGEP, FYEG and EU Members.

13.2 The Committee will propose to the Congress a detailed project for the:

- preparation of a common election manifesto;
- preparation and development of a common European election campaign and support for Members as appropriate;
- preparation of nomination, election and campaign process for the Leading Candidates
- organisation of and support for any future election process for transnational candidates.

13.3. EGP will convene coordination meetings in the year before the campaign on the level of leadership, management, and communication with the Members.

14. European Partners

14.1 The European Green Party acknowledges three partners on the European level: the Green Group in the European Parliament (GGEP), the Green European Foundation (GEF) and the Federation of Young European Greens (FYEG). The EGP's specific responsibility is the coordination and consultation on all matters concerning Green Member parties.

The Green Group in the European Parliament (GGEP)

14.2 The GGEP holds the exclusive political representation of European Green Party Members at the European Union political level. The coordination between the two bodies is guaranteed at executive level by mutual representation of their Secretaries-General at respectively the European Green Party Committee and the Green Group's Bureau.

14.3 The GGEP participates in the decision-making process of the European Green Party by its representation in the Council of its four delegates and by its four votes. All members of the Green Group (MEPs) are exclusively represented in the EGP by the Green Group's delegation to the EGP Council.

The Green European Foundation (GEF)

- 14.4 The Green European Foundation (GEF) is the exclusive partner at the European level as regards European Foundations. GEF is organised as a separate legal entity with separate financial accounts, operating in accordance with its own statutes and internal regulations.
- 14.5 The coordination between the bodies is guaranteed at executive level by mutual representation of the Secretaries-General at respectively the European Green Party Committee and the Green European Foundation's Board. This mutual representation does not give rise to any voting rights or executive powers.
- 14.6 The EGP was given the right to a representation of four members to the General Assembly of the Green European Foundation. Two members shall be nominated by the Committee. Two members shall be elected by Congress. Insofar as EGP recognises the Green European Foundation as an affiliated, but fully independent entity, these members will act on an individual and personal basis and will not receive a binding mandate from the EGP.
- 14.7. If the composition of the GEF General Assembly should change, the same principle shall apply and the Committee shall retain the right to nominate a similar proportion of members.

The Federation of Young European Greens (FYEG)

- 14.8 FYEG is the exclusive and independent youth organisation of the European Green Party with the objective of bringing together young environmental and Green political groups from all over Europe and to encourage both mutual understanding and mutual action to promote a greener Europe.
- 14.9 The structural agreement between EGP and FYEG is annexed in in Annex D
- 14.10 The FYEG participates in the decision-making process of the European Green Party by its representation to the Congress of four delegates and by its four votes. FYEG nominates one member to the EGP Committee. This member cannot hold any of the four specific posts of the Petit Committee. The nomination of this FYEG representative will follow the Committee elections deadlines.

Global Greens (GG)

- 14.11 The EGP is one of the four federations that compose the Global Greens. The Member Parties of the EGP are represented in the Global Greens by the EGP.
- 14.12 The EGP is given the right to a representation of three members and three alternates in the Global Greens Coordination (GGC).
- 14.13 Four of the six EGP representatives in the GGC are elected by the Congress. One member and one alternate member are nominated by the Committee.

- 14.14 The first two candidates to be elected should fill the main seats and the next two be elected as alternates.
- 14.15 In case of an insufficient number of candidates, the Committee may appoint the remaining members.
- 14.16 If the GGC changes its composition or structure, the same principle shall apply and the Committee shall retain the right to nominate a similar proportion of members.

Annex B

Criteria for Membership fees

1. Definitions:

- 1.1. "State funding" means funding received from the national institutions directly or indirectly through a coalition partner. State funding through coalitions should be considered in proportion to the number of elected MPs from each party in coalition, unless otherwise specified in the coalition agreement. In case an EGP Member is receiving funding for coalition, its state funding should be assessed without the amounts distributed to other coalition partners.
- 1.2. "Member of Parliament" refers to a representative of the EGP Member Parties elected to the national parliament.
- 1.3. "Senator" refers to a representative of the EGP Member Parties elected to the Senate.
- 1.4. "Member of the European Parliament" refers to an elected representative of EGP Member parties to the European Parliament.
- 1.5. "Absolute number of votes" refers to a number of votes that a party received in the last national elections. In case of an electoral coalition, the number of votes is defined proportionally according to the number of seats gained respectively by the coalition and the Member Party. In case a Member of Parliament leaves the party during the electoral term and this is registered by the national parliament, the electoral results used for calculating membership fees for the following year will be adapted accordingly.

2. Full Members from those EU countries not receiving state funding:

- 2.1 a basic fee for parties without Members of Parliament or Senators is EUR 1 000
- 2.2 a basic fee for parties with Members of Parliament or Senators is EUR 2 500

3. Full Members from those EU countries receiving state funding

- 3.1. A total amount of the basic fee paid by the Full Members receiving state funding is calculated on the basis of the total amount of membership fees proposed by the Committee minus the fees to be paid by other EGP Members from EU countries (Full Members with no state funding and Associate Members and fees per Member of the European Parliament).
- 3.2. 50 % of the amount defined in point 3.1 is proportionally divided according to the number of Members of Parliament elected in the last national elections; the total number of senators and Members of Parliament elected in France should be considered for the purpose of this calculation.
- 3.3. 50 % of the amount defined in point 3.1 is proportionally divided according to the absolute number of votes gained in the last national elections.
- 3.4. A maximum basic fee for a Member Party calculated on the basis of 3.1 – 3.3 shall be limited to 25 % of the total basic fees as defined in point 3.1.

3.5. A minimum basic fee for a Member Party calculated on the basis of 3.1 – 3.3 is EUR 4 600.

4. **Associate Members** from the EU countries pay 50% of the fee it should pay as a Full Member.

5. To allow for economic differences among countries, a basic fee – as defined in the articles 2-5 of this Annex – is corrected using a coefficient based on **median net income**:

Median net income, EUR	Coefficient
Below 5 000	0.8
5 000 – 10 000	0.9
10 000 – 15.000	1
15 000 – 20 000	1.1
20 000 – 25 000	1.2
25 000 – 30 000	1.3
Above 30 000	1.4

6. **EGP Members from non-EU countries**

The same principles as stipulated in articles 1-6 of this Annex apply to Members from non-EU countries when calculating the membership fees they are supposed to pay, providing there is a legal basis for this.

When a 'median net income' indicator is not available in non-EU countries, an average gross monthly salary indicator is used as a proxy for comparison with countries where both indicators are available.

7. Each Member (Full and Associate Members) shall contribute annually 1.700 € per elected Member of the European Parliament as registered by the European Parliament.

8. When a Member changes its membership fee category because of an improvement in the election results, by establishing parliamentary representation or by becoming eligible for state funding, the membership fee can be increased gradually by a decision of the Committee, taking into account the special circumstances of the Member Party in question.

9. In order to simplify the preparation and verification of the draft membership fees, Member Parties shall send the official election results to the EGP as soon as possible.

10. The draft membership fees for the following year are voted at the Congress and are calculated based on the results of the elections that took place before the deadline to send out the draft documents by the EGP office. Amendments to

the draft membership fees shall be introduced based on the election results, given that the final results are public (i.e. 100 % of the ballots are counted) before the deadline to submit the amendments to the draft documents (see annex C for deadlines).

- 11.** When a party is accepted as a new Member or changes its membership category its new membership fee should be calculated as follows:
 - if the respective membership category is adopted at an Extraordinary Congress in spring - it has to pay its new membership fees for the second half of the year;
 - if the respective membership category is adopted at the Congress – it has to pay its new membership fees starting the following year.

- 12.** In case of dispute regarding the number of elected representatives, EGP refers to the official registration by the respective institutions.

As amended by the 37th Extraordinary EGP Congress, Vienna, 2-3 June 2023

Agreement between the European Green Party and the Federation of Young European Greens

This agreement complements the provisions stipulated by the EGP Statutes and Rule Book.

The EGP recognises and appreciates the Federation of Young European Greens (FYEG) as its sole youth wing and FYEG endorses this position.

I Political Cooperation

The relationship of FYEG and EGP should aim to strengthen the green movement in Europe. FYEG and EGP will work together on a common Green project for Europe. They will do so with the other green actors, cooperating in campaigns, projects, meetings, actions and institutional work based on mutually agreed common priorities. One of which will be the strengthening of EGP and FYEG.

The political and organisational presence of the European Green Party among young people will be through the Federation of the Young European Greens. Making the green voice heard among young people is a responsibility of all green actors. FYEG will be the leading and coordinating organisation in reaching out. FYEG will as well be the voice of young greens on European level and establish the policy of the European greens related to youth issues.

FYEG's main task is to promote and lobby for their members point of view on politics in general and on green politics specifically. Furthermore, it works to defend and promote youth's rights within the Green Parties and the EGP and in Europe and to involve young people in the green project. It is also a tool for education and political learning and development. FYEG will strive to unite young green organisations all over Europe and advance and inspire the creation of green organisations where they do not exist, in Europe and beyond in agreement and cooperation with EGP. FYEG as well as EGP engages itself to oppose any kind of social, ethnic, religious, sex oriented, age based, or birthplace linked discrimination. FYEG is committed to fight against homophobia and xenophobia and in favour of equality.

FYEG and EGP will inform each other about their activities and contacts in order to achieve a greater level of synergy.

FYEG aspires to be fully involved in the EGP policy making process. It sees its role as

a catalyst to advance the green agenda.

FYEG is represented by one of its Co-Spokespersons at the Committee level. In addition, FYEG and EGP agree to a basic reciprocity and make sure that their respective representatives are invited to each other's main political meetings.

The EGP ensures that political contributions and statements of the FYEG are circulated among its members and regularly discussed in its meetings. Vice versa, FYEG will circulate relevant position papers and statements of the EGP among its members.

Independence

FYEG is a separate political organisation. With the purpose of bringing together young environmental and Green political groups from all over Europe, and act as an actor at European level, FYEG strives for environmental and human rights as well as for social justice. FYEG recognises as its parent party the European Green Party. The FYEG endorses the Charter of the EGP. FYEG remains an independent organisation, which can take its own political standpoints, has its own political platform, and does its own activities and has the freedom to cooperate with like-minded organisations and institutions and will share its contacts with EGP.

FYEG cooperates with EGP at European level and in principle with the EGP member parties and the Global Greens.

FYEG will stay independent in the meaning that it will follow its own political agenda and has the right to publicly take different standpoints than the party.

FYEG will if possible campaign with EGP and in elections strongly support EGP.

II Financial relations

EGP and FYEG will work together to minimise each other's costs, including common communication and administration. EGP and FYEG cooperate regarding priority regions, priority themes etc and implement joint projects.

Annually, EGP provides FYEG with a basic financial support for the functioning of FYEG.

This basic financial support shall be calculated as follows:

- 3,5% * (amount of the EP grant + 10% of the own resources required to cover it).
- The amount of the EP grant is provisionally set according to the EGP application for the EP grant in the preceding year and is adjusted, if necessary, following the confirmation of the grant award by the EP.
- The maximum amount of this basic financial support is limited to the amount legally allowed by the European Parliament.

The full amount of the basic financial support shall be used in the budget year, no carryover to the following year is allowed.

Expenditure, accounting and reporting must be done in accordance with the rules and regulations stipulated by the European Parliament.

FYEG still advocating for getting political youth organisations supported by the European Parliament in the framework of European Party financing. The EGP will take a proactive role supporting this option as well as in supporting all other provisional steps that can contribute to generate funds or access to appropriations in the frame of the EU institutions that can help to enhance the work of the FYEG and to allow FYEG to function independently from funding by the EGP. The EGP will also assist the FYEG in its financial talks with other green groups such as the Green Foundations.

III Final dispositions

In case of strong disagreements concerning the implementation of this agreement both FYEG and EGP can start a mediation procedure. The mediation procedure foresees the creation of a 6-person mediation commission (3 from each organisation) and a time frame for the mediation commission to present proposals to the EGP and the FYEG to solve the strong disagreement.

Procedures for the operation of the Conciliation Panel

Preamble

Conflicts can and do arise within an organisation and between individuals, and the European Green Party is not immune from this. The European Green Party encourages conflict resolution at the level where it occurs and by the parties directly concerned. In general conflicts can and should be resolved in a timely manner by the regular decision-making bodies within the EGP. In cases when a conflict cannot be resolved within the normal functioning of these bodies, a petition is filed with the EGP Conciliation Panel. Two conflict resolution methods are defined: mediation and conciliation.

I Conciliation Panel

- 1.1 The Conciliation Panel is an independent body of the European Green Party, which is entitled to settle disputes arising from the application or interpretation of the EGP Statutes, the EGP Rule Book or other operational matters related to EGP.

 - a. political differences, differences in points of view or disputes of a political nature, which are within the competences of the national Conciliation Panel (or similar body for conflict resolution);
 - b. appeals relating to the decisions taken by the national Conciliation Panel (or similar body for conflict resolution);

- 1.4 The Conciliation Panel operates in public to the members of the EGP, hearings are open to representatives of the members, but members may be excluded if it is in the interest of the concerned parties.

III Conflict resolution mechanisms

3.1. Mediation

- 3.1.1 Mediation can be used for cases when the Congress decision has not yet been taken.
- 3.1.2 In cases where all involved parties have agreed to mediation, the Conciliation Panel shall select a mediator(s) amongst themselves. The parties involved can request another mediator(s) from the Conciliation Panel in case they consider that a selected person may be biased. These recommendations may include disciplinary measures defined in the EGP Statutory documents if necessary. In case the disputed issue is a Congress decision and the Panel decides in favour of a petitioner, the Congress must re-vote on the issue, taking into account the report of the Conciliation Panel.
