

Minutes of the online 38th EGP Congress, as adopted by the 39th EGP Congress in Dublin, 6-8 December 2024

Saturday, 2nd December 2023

Session: Opening

10:00 – 10:15

Speakers: **Mélanie Vogel**, co-chair of the European Green Party

Mélanie Vogel welcomes the participants to the 38th Congress, acknowledging the importance of the Congress despite being held online. She expresses regret at not meeting in person but notes that resources saved from not hosting a physical event will be invested in the extraordinary electoral congress in Lyon February 2nd to 4th 2024.

Mélanie pays tribute to Michèle Rivasi, longstanding member of the European Green family, who had passed away very suddenly, just one week before the Online Congress. **Mélanie** highlights Michèle's unique qualities, her passion, determination, and ability to connect with people. She shares Michele's belief on how important it is to use campaign times to connect to people and spread ones determination and passion for building a better world.

Mélanie continues by stressing the importance of mobilising citizens in the European Union before the upcoming European Elections. She acknowledges the challenges posed by far-right movements and global conflicts while at the same time drawing inspiration from the latest national elections in Spain and in Poland. **Mélanie** highlights that with a strong common campaign that mobilises citizens all over the European Union a better future for all is possible: Autocrats can be defeated; fundamental rights can be upheld. The climate, the biodiversity crisis can be tackled. A green and social plan, that put social justice as the goal of the green transition is possible.

Mélanie shares her strong conviction that a common campaign can make this necessary change possible, emphasising that we need to change the majorities in the European Parliament.

Mélanie closes with a short run-through of the day ahead:

- (1) Presentation of the EGP Campaign Plan
- (2) Presentation of the four Leading Candidates contenders
- (3) Presentation of the draft Manifesto
- (4) Voting Session

Session: Presentation of EGP Campaign Plan

10:15 – 11:15

Speakers: **Thomas Waitz, Sybren Kooistra**

Introduction by Thomas Waitz, Co-chair European Green Party

Thomas Waitz opens the presentation of the Common Campaign plan by emphasising the significance of the EGP campaign plan in replicating the 2019 success amidst a challenging climate of rising populism and far-right movements in Europe, posing a threat to democracy. He stresses the importance of gaining public support by intertwining climate policies with social justice, acknowledging the multiple crises impacting people's lives. **Thomas** continues by highlighting that especially in times like this it needs courage to stand up and fight for a better future for all.

Thomas underlines the collaborative nature of the campaign plan process and the important role of the leading candidates in representing the common campaign across European countries. He emphasises the EGP priorities '24 as well as the importance of mobilisation in order to increase voters' turnout as much as possible. The advanced digital campaign strategies of the EGP can be an important contribution to the campaign efforts of the member parties. **Thomas** states the strong commitment of the Committee to work very closely together with all member parties will ensure the success of the common campaign.

2024 Common EGP Elections Campaign presentation by Sybren Kooistra, EGP Campaign Manager

The presentation outlines the comprehensive campaign plan for the upcoming elections, drawing on the successful elements from the 2019 Greens campaign. The upcoming 2024 campaign emphasises a unified approach with a common manifesto and priorities, shared content, and digital strategy focusing on amplification, organising, mobilising, and engaging voters.

The campaign will intertwine climate and social issues, facing current challenges and right-wing backsliding with courage. Key components of the campaign include:

- **Theme and Branding:** Emphasising courage and distinctive branding.

- **Manifesto and Priorities:** Collaborative approach, showcasing our strong common proposals for a better future for all
- **Leading Candidates (LCs):** Representing the face of the campaign.
- **Events:** Organising rallies and events across Europe, including the Extended Congress in Lyon.
- **Training and Tools:** Providing digital training, a campaign handbook, an adjustments platform, and resources to counter attacks.
- **Volunteers:** Establishing a sharing circle and a Green team of 100-200 volunteers.
- **Amplifiers:** Engaging influencers, celebrities, and activists to share messages.
- **Get Out The Vote (GOTV) Strategies:** Target our key audience through relevant social media channels like TikTok, through targeted ads, and leveraging the Tilt community.

The EGP campaign plan focuses on adapting to the changing political landscape. It leverages digital tools and community engagement to ensure a powerful and cohesive campaign.

Q&A from the audience:

The questions refer to various aspects of the campaign strategy, focusing on influencer engagement, expat mobilisation, digital volunteering, and messaging approaches:

- Funding Strategy
- Influencer Engagement
- Non-EU Country Participation
- Expat Mobilisation
- Digital Volunteers
- Messaging and Platforms
- Targeted Voter Groups

Overall, the campaign is gearing up with digital tools, influencer engagement, and targeted strategies for voter mobilisation, particularly among expats and young people.

Session: Presentation of the Contenders for Leading Candidates

11:15 – 12:15

Speakers: **Thomas Waitz, Benedetta Scuderi, Terry Reintke, Elīna Pinto, Bas Eickhout**

Thomas Waitz introduces the contenders and highlights the importance of Leading Candidate process to give EU citizens a transparent and democratic choice regarding the next President of the EU Commission.

He outlines again the guidelines and process for the lead candidates to be elected at the 37th EGP Congress in Vienna:

- 8 November 2023: Call for contenders
- 2nd December 2023: Presentation of contenders at the Online Congress

- 7th of January 2023: Contenders need to receive the endorsement of at least 5 member parties (EU-full and EU-associate)
- 2nd to 4th of February 2024: Election of the EGP leading candidates at the Extraordinary Extended Congress in Lyon

Four contenders will present themselves today. Each contender has 7 minutes, followed by questions. Questions need to be sent to Thomas' email address until the end of the presentation session.

Thomas invites the first contender to the stage: **Benedetta Scuderi**, nominated by FYEG. She is the co-spokesperson of FYEG.

Benedetta Scuderi gives her speech.

Thomas reads the questions sent by Member Parties:

- How would you make sure that smaller Green Parties also feel like an important part of the campaign?
- How do you plan on involving the youth climate movement in the campaign?
- We are seeing a rise of the far-right and normalisation of this by parts of the centre-right and liberals. What experience do you have in countering the far-right? As Lead Candidate, how would you counter the far-right?
- As our top candidate, you will need to be the most credible defender of Green values in all of Europe to a very wide audience. You will need to get the votes in, to convince people to vote Green. Can you give us your 1min sales-pitch to convince a person to vote Green?

Benedetta Scuderi replies to the questions.

Thomas thanks **Benedetta Scuderi** and introduces **Terry Reintke**, nominated by Bündnis 90/Die Grünen. She is the Co-Chair of Green Group in the European Parliament and was elected as MEP for the first time in 2014.

Terry Reintke gives her speech.

Thomas reads the questions sent by member parties:

- Given the economic and social inequalities between the EU countries (the so-called centre-periphery divide), what policies would you promote to reach more economic and social convergence?
- We are seeing a rise of the far-right and normalisation of this by parts of the centre-right and liberals. What experience do you have in countering the far-right? As Lead Candidate, how would you counter the far-right?

Terry Reintke replies to the questions.

Thomas thanks **Terry Reintke** and introduces **Bas Eickhout**, nominated by GroenLinks. He is vice-chair of Green Group in the European Parliament and was elected the first time as MEP in 2009. He was leading candidate of European Greens in 2019. He joins online from COP 28.

Bas Eickhout gives his speech.

Thomas reads the questions sent by Member Parties:

- How would you make sure that smaller Green Parties also feel like an important part of the campaign? How will you make sure you will represent the Green European movement in its entire diversity?
- How do you plan on involving the youth climate movement in the campaign?
- As our top candidate, you will need the most credible defender of Green values in all of Europe to a very wide audience. You will need to get the votes in, to convince people to vote Green. Can you give us your 1min sales-pitch to convince a person to vote Green?

Bas Eickhout replies to the questions.

Thomas thanks **Bas** and invites **Elīna Pinto** to the stage, nominated by Progresīvie. She was the candidate of Progresīvie at the last presidential elections in Latvia.

Elīna Pinto gives her speech.

Thomas reads the questions sent by member parties:

- Given the economic and social inequalities between the EU countries (the so-called centre-periphery divide), what policies would you promote to reach more economic and social convergence?
- As our top candidate, you will need the most credible defender of Green values in all of Europe to a very wide audience. You will need to get the votes in, to convince people to vote Green. Can you give us your 1min sales-pitch to convince a person to vote Green?

Elīna Pinto replies to the question.

Thomas thanks **Elīna Pinto** and reminds that all 4 contenders need to secure the support of 5 member parties (EU-full and EU-associate) by 7 January.

Session: Membership & Activity Report

14:00 – 14:30

Speaker: **Benedetta De Marte**, Secretary General of the European Green Party

Benedetta De Marte presents the Membership & Activity report, outlining the different activities EGP has conducted and meetings that were held with member parties. She mentions joint activities with the Greens/EFA group in EP such as the communications network meeting and the Green Social Summit, as well as with FYEG. **Benedetta** highlights the high number of EGP activities with member parties. In addition, she emphasises the EGP efforts with regards to growing the Green family more explicitly two fact finding missions in autumn 2024 to Croatia and Lithuania.

She outlines the activities planned for 2024, with a focus on the joint European elections campaign. The draft activity plan 2024 will be voted on during the online congress.

Session: Financial Reporting

14:30 – 14:45

Speaker: **Ute Michel**, Treasurer European Green Party

Ute presents the draft budget for 2024.

Unlike in 2018/2019, there was only a comparatively small increase in 2024 compared to 2023 (46 to 50 million EUR for all EUPPs). We expect a substantial carry-over from 2023 to 2024 of 1,55 million EUR. We are going into the election campaign with a much higher staffing level than in 2018 and will only add a few additional campaign staff posts. There is still uncertainty over legal requirements/guidance regarding some elements of election campaign expenditure.

The reporting period of the election campaign will start from the beginning of December.

The EP budget is 5.478.054 EUR, while the carry-over budget is 1.750.500. The total budget is 7.228.554 EUR.

The carry over budget has primarily gone into the election campaign.

Comparing 2023 budget (6.278.600 EUR) with 2024 budget (7.228.554 EUR), infrastructure and operating costs as well as administrative expenditure are going down. Personnel costs have gone up, while meeting and representation costs have gone down.

The grant application we applied for as EP budget is 4.8 million EUR. There is a minus figure in the carry-over budget as there was a dispute over whether an MEP was still a legitimate EGP member at the deadline: we argued yes, but the authority ruled he wasn't, so we can expect - 75.000 EUR.

For the grant budget we will not need to dissolve money from the fund, but we would need to for the carry-over (200.000 EUR).

In terms of membership fees, the total to be invoiced from EU member parties is 531.612 EUR, of which from full members 513.365 EUR and from associate members 18.247 EUR (accounted as donations as per legal requirements).

Ute presents the two proposals from EGP Committee that require the vote of the delegates:

1. Congress adopts the balanced draft total budget 2024 of 7.228.554 EUR
2. Congress adopts the draft membership fees for 2024 as per the membership fee table for EU countries only, with a total of 531.612 EUR.

Membership fees will only be raised from EU member parties in line with current legal requirements. The voting rights of the non-EU member parties at Congress remain unaffected.

Christian Kmiotek writes on behalf of FAB the recommendation to accept the 2024 budget and campaign budget.

Ute presents the campaign budget. In comparison to previous election campaigns, the campaign budget 2024 is 2.215.500 EUR, while in 2019 it was 1.698.706 EUR and in 2014 it was 571.971 EUR.

The draft campaign budget follows the same structure as our usual budget, with the same 5 categories.

R.1.8 Vote on the full text as amended. 2/3 majority needed. Votes cast:

- In Favour: 67
- Against: 17
- Abstain: 0

The resolution is accepted.

PROTOCOL NOTES

Wanja Kaufmann (Swedish Greens) asks in the chat to put an official reservation in the protocol for the Israel-Palestine resolution.

We received per email "*Miljöpartiet de Gröna (Sweden)* distances themselves from this resolution, with the motivation that it lacks historical and political context, as well as nuance, when it comes to describing the current situation."

Pegah Edalatian (German Greens) asks for the floor. She asks to add protocol note to the minutes on Ceasefire, ICC and the West Bank.

German Greens' protocol note

Ceasefire

For BÜNDNIS 90/DIE GRÜNEN, ensuring the security of Israel and its citizens is part of Germany's Raison d'état. This special relationship with Israel is based on our country's historical responsibility. Following the brutal terrorist attack by Hamas, Israel has the right to defend itself in accordance with international law and international humanitarian law. Part of that same law is that civilians need to be protected during conflict. We welcome the United Nations Security Council Resolution 2712 to uphold humanitarian law and ensure the protection of the civilian population through extended humanitarian pauses. We call for humanitarian pauses and unhindered humanitarian access to enable life-saving assistance to reach all those in need and to facilitate the release of all hostages. We will continue to do our utmost to help alleviate the suffering of the civilian population in Gaza including by supporting humanitarian relief efforts. But we can not demand a „humanitarian ceasefire“, while attacks by Hamas continue. A ceasefire is only possible if and when Israel's security is guaranteed and if it is reached in mutual agreement with all involved parties especially the Israeli government.

ICC

International law, international humanitarian and human rights law and accountability for violations of these are vital achievements by the international community. Those responsible for violations of international law, including international humanitarian and human rights law, must be held to account. The application of that law must be impartial. We do not support the reference to the UN Independent International Commission of Inquiry on the Occupied Palestinian Territory, including East Jerusalem, and in Israel, since its members have repeatedly taken one-sided positions.

West Bank

BÜNDNIS 90/DIE GRÜNEN opposes the ongoing Israeli settlement construction, plans for annexation in violation of international law and settler violence against Palestinians in the West Bank. They cause human suffering and are obstacles to peace.

Cases of disproportionate use of force by the Israeli military in the West Bank have to be investigated. Israel's right to self-defense, however, has to be upheld. Israel has a responsibility to protect its citizens. Demanding a stop to the use of force in general would mean that Israel's military would need to withdraw from the West Bank before reaching a negotiated political solution that respects both the rights and security interests of Israel and Palestinians. Furthermore, only condemning instances of Israel's military use of force without condemning terror attacks by Palestinian groups in the West bank is one-sided.

These are the main reasons why we, as German Greens, could not support the proposed resolution.”

After the online Congress, both **Ecolo and Groen** asked to include in the minutes their will to distance themselves from this resolution.

Groen adds: *Groen voted against this resolution as there is no clear condemnation of the actions of Israel. We believe there is no balance between condemning the horrible actions of Hamas and the actions of Israel that have led to the death of thousands of people. For Groen, this balance in the text was essential as we believe it necessary in order to bring an end to the terrible violence and re-engage both the Palestinian and Israeli governments towards a long term engagement for a two state solution.*

R2: European Greens stand in solidarity with Belarusian Greens and the Belarusian civil society.
No amendments tabled. Votes cast

- In Favour: 101
- Against: 0
- Abstain: 0

The resolution is accepted unanimously.

Sibylle concludes the voting session. She thanks all for the constructive cooperation. She thanks staff and AMC members. And announces that the presentation of the Manifesto is postponed to the beginning of next year.

Closing

Speaker: Benedetta De Marte

Benedetta concludes the online congress and thanks the rest of Committee and the EGP staff for their work. She apologises once again for the technical inconvenience and thanks the delegates for their patience and will to finalise the voting session. She reminds them of the next in-person **Extended Congress in Lyon, 2-4 February 2024**. And she invites everyone to **save the date for the autumn congress from 6 to 8 December 2024**, for which the location is yet to be announced. With these announcements she formally closes the congress.
