COMPLAINT AND ENQUIRY HANDLING

Canberra Airport targets a 100% response rate in its handling of customer complaints and enquiries.

This is not always achievable due to the way in which passengers deliver their complaints, with many electing not to provide any contact details for a response by the Airport following an investigation of the complaint.

In this quarter Canberra Airport provided a written response to 100% of the complaints and enquiries it received from passengers, other visitors of the Airport and the general public.

For the October 2022 to December 2022 quarter, Canberra Airport received 22 items of customer feedback.

“Canberra Airport – please consider stocking basic essentials such as nappies for young children. A mother next to me had forgotten hers and we had to put up with her child stinking the place up for ages. She was also extremely stressed out that no one stocked anything”

NOTIFIABLE QUALITY OF SERVICE ISSUES

A notifiable quality of service issue is triggered when, in each period, the number of complaints on a quality of service theme are equal to or greater than 0.1% of passenger throughput. Where this occurs, the Airport has 60 days to notify the Commonwealth Department of Infrastructure and Transport of the quality of the issue and provide details of corrective action being undertaken to address the quality of service issue.

There was no notifiable quality of service issues during the period.
