COMMERCIAL LEASING ON THE UP

BUSINESS SENTIMENT IS ON THE UP AND
UNCERTAINTY NOW DOWN.

With the Federal Government recently lifting the hiring freeze on the public service, more businesses and departments are feeling confident to make decisions about their office accommodation. The trend is now to consolidate and bring people and departments together into the one location and the Canberra Airport business parks are fast becoming a hub for Defence, IT, and security providers in particular.

Global IT services provider CSC will consolidate its Canberra operations at 12 Brindabella Circuit, centralising around 150 staff from offices in Barton and Northbourne Avenue. This follows recent moves by two of the 'big four' global accounting and consulting firms - Deloitte and KPMG - to strengthen their presence at the business park.

Deloitte's Office Managing Partner in Canberra, Lynne Pezzullo commented: "Canberra Airport's development activity, new hotel facilities, ease of parking, quality and diversity of amenities, as well as value for money, ultimately drove the decision to expand."

Canberra Airport Head of Property, Richard Snow said: "To have two of the 'big four' accounting firms and a global IT company commit to the business park within 6 months is a great vote of confidence in our product."

NEW VIBE ON AIRPORT

VIBE HOTEL PROGRESSING ON SCHEDULE AND
OPENING IN NOVEMBER.

With all seven storeys up and the scaffolding down, the striking Vibe Hotel at Canberra Airport is now revealed. Located 150 metres from the entrance to the terminal, the hotel has taken on an aviation theme with Lower Deck, Upper Deck and First Class references, and the five meeting rooms named after airport codes such as LAX and JFK.

Offering majestic views over Lake Burley Griffin to Parliament House, and across the runways, this new 4.5 star Vibe Hotel will feature 12 suites, 5 one-bedroom apartments and 170 guest rooms. There will be a large gymnasium with views to distract whilst working out, and a large central atrium with an 'intermingle zone' of a restaurant, bar and reception.

Canberra Airport Head of Property Richard Snow said: "An airport hotel has long been envisaged in our master plan and will strengthen the case for international flights and increased domestic capacity by delivering a premium accommodation option for travellers."

Richard said Canberra Airport was excited to be embarking on this adventure with Toga Far East Hotels (TFE Hotels), under the Vibe Hotel brand, as it strengthens the regional relationship with Singapore, one of Australia's most important economic, defence and trading partners.

RUN FOR NEURA BRAIN RESEARCH

THE SNOW FOUNDATION SENT OFF THE NEURA RESEARCH RELAY RUNNERS FROM CANBERRA AIRPORT.

A team of eight runners from NeuRA - Neuroscience Research Australia - set out from the terminal on a chilly Sunday morning in May to run from Canberra to Sydney to raise vital funds for research. The 30-hour relay covered almost 300km and saw the team finish at the NeuRA office in Randwick on Monday afternoon.

As well as raising more than \$40,000, the team aimed to raise awareness of disorders like Alzheimer's, Parkinson's, Motor Neurone Disease, Schizophrenia, Bipolar and Autism.
