

BuzziPlate

INSTALLATION MANUAL

Note

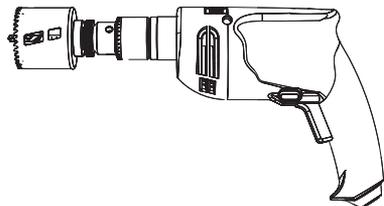

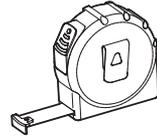

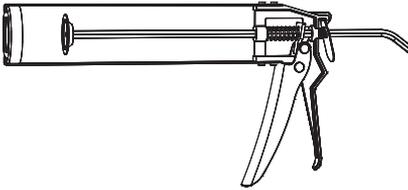

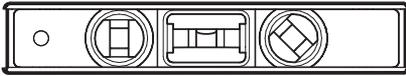

For wall use only!

Be sure wall surface is free of dirt, grease or any special paint finishes that could prevent the adhesive from adhering to wall surface.

BuzziPlate can be mounted directly onto the wall. We recommend using a standard polymer construction adhesive or contact adhesive. It is the installer's responsibility to ensure the chosen adhesive is suitable for the intended application and substrate.

Please note that the adhesive is not included with the wall panels but is readily available at any construction materials store.
