
BuzziKnit Planter

Product Specification Sheet

This document contains technical
information about the BuzziKnit Planter

www.buzzi.space

Dressed by Maison Tricot

BuzziKnit Planter is the perfect fusion of a planter and an acoustic element. The upholstered colorful pot, made from high-density foam, has the acoustic superpower to absorb excessive noise in open areas, from modern offices to cozy living spaces, creating healthier environments for people to thrive. The room divider is dressed by Maison Tricot in an innovative and handcrafted knit made entirely from 100% recycled PET, embodying a commitment to eco-friendly practices.
