

USE YOUR DATA YOUR WAY

Learn How To Control Your Data Usage

Part 3 Cont.

6. Control Push Notifications

- iOS: Go to Settings > Notifications and adjust settings for each app.
- Android: Go to Settings > Apps & notifications > Notifications and manage each app's notification settings.

7. Limit Cloud Services Data Usage

- iOS: Go to Settings > [Your Name] > iCloud > iCloud Backup and toggle off if not needed.
- Android: Go to Settings > Accounts > Google > Account sync and disable sync for items you don't need.

8. Monitor Data Usage

- iOS: Go to Settings > Cellular to view data usage for each app.
- Android: Go to Settings > Network & internet > Data usage to see detailed data consumption.

9. Manage Roaming Data

- iOS: Turn off data roaming in Settings > Cellular > Data Roaming.
- Android: Go to Settings > Network & internet > Mobile network > Roaming.

10. Enable Data Saver Mode

- iOS: Go to Settings > Cellular > Cellular Data Options and enable Low Data Mode.
- Android: Go to Settings > Network & internet > Data Saver and turn it on.

Data used for these activities will incur Out Of Bundle (OOB) charges. To avoid OOB charges dial *675# to activate a data plan or block OOB charges by dialling *777#.
