

6 Panel Display Stand

How to Assemble a 6 Panel Display Stand with Aluminium Frame

- Remove the top and base panels from the cardboard packaging.
- Take the base panels with the protruding pins and place into a “Z” shape.
- Lift and place the top panels over the base panels.
- Locate the pins into the sockets in the top panels.
- Attach the header by locating the pins of the header panel into the sockets of the centre panel.
- Ensure that the Display Stand is angled to give adequate stability.
- Attach display material using hook Velcro tabs (recommended).
- Please note that due to the nature of the panel core, drawing pins are not recommended for continuous/ changing use.

To dismantle this Display Stand

- Remove the header panel.
- Concertina the panels together.
- Lift the top panels from the base panels.
- Place both sets of panels and the header panel back into the cardboard packaging.
